Four Contemporary Korean Plays Feb 09 2021 South Korean drama has received considerable attention in Europe and Asia, but, until recently, received only scant attention in the United States. This anthology contains early works (1989-1993) by one of Korea's leading theatre artists. These works reflect the nature of Lee Yun Taek's genius, his contributions to contemporary Korean theatre and the socio-political climate in South Korea during the release of his early works. They are indeed "brief chronicles of their time." The plays, Citizen K; O-Gu: A Ceremony of Death; Mask of Fire: Ceremony of Power; and The Dummy Bride: A Ceremony of Love, are a collection that illuminate such polarities as purity/depravity, madness/reason, power/impotence, life/death, and freedom/oppression. These polarities are clearly Korean in form and substance, but their subject matter and motifs are universal. An introductory essay addresses particular aspects of each drama with extensive notes accompanying each play, which include information about Korean society, culture, and history.

Teamster Rank and File Oct 25 2019 Available for the first time in English, this is the definitive account of the practice of sexual slavery the Japanese military perpetrated during World War II by the researcher principally responsible for exposing the Japanese government's responsibility for these atrocities. The large scale imprisonment and rape of thousands of women, who were euphemistically called "comfort women" by the Japanese military, first seized public attention in 1991 when three Korean women filed suit in a Toyko District Court stating that they had been forced into sexual servitude and demanding compensation. Since then the comfort stations and their significance have been the subject of ongoing debate and intense activism in Japan, much if it inspired by Yoshimi's investigations. How large a role did the military, and by extension the government, play in setting up and administering these camps? What type of compensation, if any, are the victimized women due? These issues figure prominently in the current Japanese focus on public memory and arguments about the teaching and writing of history and are central to efforts to transform Japanese ways of remembering the war. Yoshimi Yoshiaki provides a wealth of documentation and testimony to prove the existence of some 2,000 centers where as many as 200,000 Korean, Filipina, Taiwanese, Indonesian, Burmese, Dutch, Australian, and some Japanese women were restrained for months and forced to engage in sexual activity with Japanese military personnel. Many of the women were teenagers, some as young as fourteen. To date, the Japanese government has neither admitted responsibility for creating the comfort station system nor given compensation directly to former comfort women. This English edition updates the Japanese edition originally published in 1995 and includes introductions by both

the author and the translator placing the story in context for American readers.

Integrated Korean Mar 10 2021 Korean is the seventh most commonly spoken language in the United States, and Korean heritage students—those with some proficiency in or a cultural connection to the language through family or community—make up a substantial portion of Korean learners at the college level. Many schools offer a separate heritage track for learning Korean, but until now there has been no textbook designed specifically for heritage learners as well as the increasing number of students from diverse backgrounds who are interested in pursuing intensive learning to build on their prior experience with Korean. Integrated Korean: Accelerated 1 and 2 directly address the linguistic needs and abilities of heritage and accelerated learners in a single academic year. Volume 1 presents lessons on thematically organized subjects, starting with familiar topics such as family, friends, daily routines, schoolwork, campus activities, dining out, and shopping. Volume 2 advances to more formal subjects beyond family and friends, such as travel, transportation, housing, holidays, lifestyles, careers, and Korean history and culture. Students approach the lessons with multilevel communicative classroom activities and reading materials with standards-based exercises and projects that not only focus on the particular language requirements

of heritage learners, but also encourage them to participate more fully in their own family and community life. Each volume's textbook and workbook offer authentic conversations and texts in both informal and formal contexts, structured tasks, and a wealth of interesting and relevant cultural content. Global Antidumping Database Version 1.0 Jul 26 2022 This paper describes a newly collected, detailed database on national governments' use of the antidumping trade policy instrument. The data collection project was funded by the Development Research Group of the World Bank and Brandeis University. While still preliminary, it goes beyond existing, publicly-used sets of antidumping data in a number of fundamental ways. It is a first attempt to use original source national government documentation to organize information on products, firms, the investigative procedure and outcomes of the historical use (since the 1980s) of the antidumping policy instrument across large importing country users. The paper also reports more and recent data on a number of smaller users of antidumping, as well as some limited information on the use of countervailing measures from national governments that are users of countervailing duty laws.

Grammar points are systematically introduced in simple but adequate explanations and abundant examples and exercises. Each situation/topic-based lesson of the main texts consists of model dialogues, narration, new words and expressions, vocabulary notes, culture, grammar, usage, and English translation of dialogues. In response to comments from hundreds of students and instructors of the first edition, this new edition features a more attractive two-color design with all new photos and drawings and an additional lesson and vocabulary exercises. Lessons are now organized into two main sections, each containing a conversational text (with its own vocabulary list) and a reading passage. The accompanying workbook, newly written, provides students with extensive skill-using

activities based on the skills learned in the main text. Audio files for this volume may be downloaded on the web in MP3 format at <http://www.kleartextbook.com>. A set of CDs is also available for purchase.
