Welcome to the Bible Oct 10 2020 This book invites newcomers into a deeper engagement with Scripture. One of the often overlooked gifts of the Anglican Church is that the texts and doctrines of the Bible are embedded in our prayers, liturgies, and creeds. Thus Anglicans tend to know the Bible better than they realize; they just don't know chapter and verse. Making that knowledge explicit and placing it in context can help to overcome the "disconnect" many Anglicans feel with the Bible, and can open the way for further and more in-depth study.

Welcome to the Jungle May 29 2022 An honest, relatable guide that can help you figure out how to live your life with bipolar disorder, from a bipolar author. Welcome to the Jungle focuses on bipolar people, not the diagnosis: the ways in which each person can find his or her own way through the extreme emotional states and intense experiences that we are calling "bipolar"—whether that means medication or meditation, psychiatrists or vision quests, good sleep or good all-night dancing, or a little bit of everything. Many bipolar books are too clinical, too alarmist, and too clearly written for family members and caretakers of people diagnosed with this mood disorder. Welcome to the Jungle is different. Author Hilary Smith wrote this guide because it is the book she wishes she'd been given when she was first diagnosed with bipolar disorder. It answers questions, points to resources, and most of all, comes from someone who understands what it's like to be thrown off course by an overwhelming mental health issue—and what to do afterwards. Just like for everyone else, there are many, many paths that bipolar people can take in life. Learn more about how to live your own life with a mental illness using the help of the insights in Welcome to the Jungle, which covers topics such as: Wrapping your head around triggers, causes of mood swings, medications, and therapists Recovering from mental breakdowns, manic moments, and major depressive episodes Living your life beyond the diagnosis—and helping your family to do the same This book is not intended to diagnose, treat, or prevent any illness or act as a substitute for advice from a doctor or psychiatrist. Praise for Welcome to the Jungle "Among the wealth of works on bipolar, this title (wisely pulled from a Guns N' Roses lyric) nicely stands out as a super reference for younger readers interested in or actually experiencing bipolar disorder and is also a valuable resource for professionals." —Library Journal

Welcome to the Poisoned Chalice Jan 13 2021 A world-renowned economist offers cogent and powerful reflections on one of the great avoidable economic catastrophes of the modern era The economic crisis in Greece is a potential international disaster and one of the most extraordinary monetary and political dramas of our time. The financial woes of this relatively small European nation threaten the long-term viability of the Euro while exposing the flaws in the ideal of continental unity. "Solutions" proposed by Europe's combined leadership have sparked a war of prideful words and stubborn one-upmanship, and they are certain to fail, according to renowned economist James K. Galbraith, because they are designed for failure. It is this hypocrisy that prompted former finance minister Yanis Varoufakis, when Galbraith arrived in Athens as an adviser, to greet him with the words "Welcome to the poisoned chalice." In this fascinating, insightful, and thought-provoking collection of essays—which includes letters and private memos to both American and Greek officials, as well as other previously unpublished material—Galbraith examines the crisis, its causes, its course, and its meaning, as well as the viability of the austerity program imposed on the Greek citizenry. It is a trenchant, deeply felt commentary on what the author calls "economic policy as moral abomination," and an eye-opening analysis of a contemporary Greek tragedy much greater than the tiny economy of the nation itself.

As Khodi Dill's rhymes heat up, the diverse crew of kids--illustrated in Awuradwoa Afful's bold, energetic style--gain self-confidence and a sense of freedom in this wonderful picture book debut that is perfect for reading aloud.

Welcome to the Bangkok Slaughterhouse Aug 20 2021 100% of all proceeds of the sale of this book will be donated to the Human Development Fund in Bangkok, Thailand The Reverend Joseph H. Maier, C.Ss.R., is a Redemptorist priest from the United States. He came to Thailand in 1967 as a missionary, serving in north Isan and then among the Hmong in Laos. In 1972, he established the Human Development Foundation in Bangkok's Klong Toey slum, where he has lived and worked for more than 30 years. Threatened and shot at, the unwavering priest has over the years become a no-nonsense, street-smart friend to the poor, from whom he draws constant inspiration. Father Joe, as he's called, has established more than thirty schools, five shelters for street kids, and several projects for women and children with AIDS, working with and against authority, earning enmity and praise in equal measure. In Welcome to the Bangkok Slaughterhouse, he tells the heartbreaking and heartwarming stories of the poorest of Thailand's poor, each a gem guaranteed to bring anger, tears, and joy.

Welcome to the Fifth Dimension Dec 24 2021 Based on her popular workshops in Canada and Europe, Welcome to the Fifth Dimension is author Diane LeBlanc's guide to helping readers recognize and integrate their multiple dimensions. Through examples, exercises, and channeled teachings, she shows us how to regain our co-creative power and live each day and moment in a state of grace. The key, says LeBlanc, is Quintessence, a self-coaching program that revitalizes the five most important dimensions of human existence in order to feel better, recover from disease, and be fully happy. The book breaks Quintessence into groups of five: the five energy fields that surround the body, the individual's five main Ò Soul families, Ó the five dimensions of the human brain, and others. The book assesses and draws on many contemporary schools of thought, as seen in books like The Law of Attraction, The Power of Now, and The Celestine Prophecy. It also provides original teachings channeled from the powerful entity LeBlanc describes as the "Mother Earth Consciousness," personified as Bianca Gaia who is LeBlanc's alter ego. Packed with charts, diagrams, and illustrations, this compelling book encourages readers to radically enhance their health and happiness by opening their minds to this new way of thinking.
