The Principles and Practice of Contact and Occupational Dermatology in the Asia-Pacific Region Jul 27 2019 This invaluable textbook on contact and occupational skin diseases is written for dermatologists, occupational physicians and practitioners interested in dermatology who are working in the Asia-Pacific region. It consists of contributions from experts in contact and occupational dermatology from many parts of the region. While most other textbooks on this subject cater to Western practitioners, this book is unique in that it focuses on topics relevant to the Asia-Pacific region and the tropics, complementing the Western publications. There are differences in the epidemiology and clinical presentations of contact and occupational dermatitis in the Asia-Pacific countries and the tropics compared to the Western countries. This book addresses the epidemiology and the approaches to the topic in many Asia-Pacific countries. It is a simple practical guide to the principles and practice of managing patients with contact and occupational skin diseases. The editors have included many colour illustrations, to assist dermatologists and other practitioners in using the book more effectively. These illustrations have been painstakingly selected to bring out clinical features as succinctly as possible.

Clinical Dermatology Mar 27 2022 The best-selling text has been completely revised and revitalised in this fifth edition, with the authors once again encouraging general practitioners, medical students, general physicians and early stage dermatology specialist trainees and interns to relish the unique challenge of diagnosing and treating skin conditions. Clinical Dermatology, 5th edition contains over 400 high quality pictures and diagrams combined with colourful phrases to illustrate and entertain as it teaches. The book has established a reputation as a 'way of learning' and as an accessible guide to the subject for the aspiring specialist. Readers are guided through the maze that too often lies between the presenting skin complaint and its final diagnosis and treatment. The authors have skilfully crafted an easily read text with enough detail to clarify the subject, but not enough to obscure it. This fifth edition contains new chapters on non-invasive physical treatment and dermoscopy, and new material on cosmetic dermatology, surgical dermatology, the skin and the psyche, and dermatoses of non-Caucasian skin. The text throughout the book has been updated in line with developments in the science and practice of dermatology. "... brilliantly succeeds in enticing you to look further. The writing is clear, and the joint British-American authorship avoids any parochial views." From a review of a previous edition in BMJ "...a very well-presented book...an excellent aid for teaching. I recommend this book highly to individuals and departments." From a review of a previous edition in J Derm Treatment "... provides a good overview of the structure and function of the skin as well as a good foundation for learning

dermatology...well organized and includes a chapter dedicated to skin signs of systemic disease which is not covered in the other dermatology primers.” From a review of a previous edition in JAMA

Dermatology Made Easy Sep 08 2020 A concise overview of the common dermatological conditions most likely to present in general medicine From reviews: "... a perfect solution to the constant struggle that dermatology diagnosis presents to primary care physicians and other providers... This well-formatted book covers a vast array of topics ranging from common to rare skin disorders. The pictures are immensely helpful in the understanding of various skin rashes...." *Fam Med* 2019;51(5):451–452. "... easy to read and informative. One cannot emphasise enough the quality and comprehensive nature of the photographic content.... As someone who was interested in dermatology even as a medical student my only regret is that this book was not around when I was a student as it would have very adequately guided me into my beloved subspecialty." *Ulster Med J* 2017;86(3):1–1. "The introduction outlines dermatological conditions by symptom, morphology and body site, providing an excellent index prior to delving into greater detail in the following chapters. The logical approach and level of detail make this text perfect for medical students, interns/residents, primary care physicians and other specialists who wish to quickly identify differential diagnoses or refresh their knowledge of dermatological conditions." A Lecturer in Dermatology *Dermatology Made Easy* is based on the hugely popular DermNet New Zealand website and is designed to help GPs, medical students and dermatologists diagnose skin conditions with confidence. The book starts by providing a series of comprehensive tables, complete with over 500 thumbnail photos, to aid diagnosis according to symptoms, morphology, or body site. Once you have narrowed down the diagnosis, cross-references then guide you to more detailed descriptions, and another 700 photographs, covering: common infections inflammatory rashes non-inflammatory conditions skin lesions Every section provides consistent information on the disorder: who gets it and what causes it? what are the clinical features and does it cause any complications? how do you diagnose it? how do you treat it and how long does it take to resolve? The book concludes with a comprehensive section on further investigations and treatment options. *Dermatology Made Easy* combines the essential focus of the Made Easy book series with the authority and knowledge base of DermNet New Zealand's unparalleled resources. Printed in full colour throughout.
