**Art in Content Apr 15 2021 Design interventions for the reuse of existing structures must face the question of the past and the extent to which it should be included in the design for the future. This is the point of departure of Int | AR, a yearly publication on current issues in international adaptive reuse. When and how is material from an existing building the catalyst for art? When does art create function and program within adaptive reuse projects? How can art transform the economics of a built context? When and where does art become building and building become art? This Int | AR volume presents essays, built or unbuilt projects and ideas that investigate the relationship of art and building reuse.**

**Teaching Language in Context Mar 03 2020 Language is at the heart of the learning process. We learn through language. Our knowledge about the world is constructed in language-the worlds of home and the community, the worlds of school subjects, the worlds of literature, the worlds of the workplace, and so on. It is through language that we interact with others and build our identities. Teachers' explanations, classroom discussions, assessment of student achievement, and students' understanding, composition, and evaluation of texts are all mediated through language. In this book, we will be exploring how an explicit understanding of how language works enables students to make informed choices in their use and understanding of texts. As educators, our job is to make sure that all students have a good command of the language needed to succeed in school and beyond. In order to do this, teachers need to know about language and how it works. This book is intended as an introduction to the language that students encounter in the various curriculum areas as they move through the years of schooling, and it will enable teachers to: plan units of work that are sensitive to the language demands placed on students design activities with a language focus select texts for reading at an appropriate level analyse texts to identify relevant language and visual features create teaching materials that integrate an awareness of language help students to access meanings created through a variety of media (written, spoken, visual, multimodal) provide explicit support in developing students' writing and composing assess students' written work extend students' ability to articulate what they are learning. New to this Edition Substantial revision and extension of all chapters. New Chapter 10 addressing inquiry genres and mixed genres. Section on the language challenges of middle and senior secondary. Additional activities. Language development from the early years through to late secondary. Increased emphasis on the multimodal nature of contemporary texts. Improved text design and visuals now in full colour.**

**actionable road map for leading ethically in a complex world. With a Foreword by Stephen M. R. Covey, this book takes us beyond the triple bottom line to 7 different perspectives on ethical leadership, and provides 14 Guiding Principles that help us honor them all in daily leadership. It answers: Why do even the ethics experts disagree about what ethical leadership means? What is the bigger picture that we should use as our leadership road map? What are the business benefits of intentionally using high-level ethical leadership? What can we do to be prepared for the future of ethical leadership? The examples, graphics, cases and questions provide a framework for deeply engaging constituents and building trust for the long term.**

**Het leven, het heelal en de rest Nov 10 2020 Hugo Veld zit dankzij zijn tijdreizen nog altijd vast op de Aarde in de tijd vóór die vernietigd werd. De voormalige planeetontwerper Magdiragdag helpt hem vluchten en vraagt hem om hulp in de strijd tegen de Hokkiërs. De Hokkiërs waren ooit een vredelievend volk, tot ze een ruimteschip leerden bouwen. Toen ze de rest van het universum zagen, schrokken ze zó dat ze besloten dat het vernietigd moest worden. Veld moet dat zien te voorkomen en beleeft onderweg een bizar avontuur. Onderwijl vernietigt hij bijna eigenhandig het leven, het heelal en de rest Douglas Adams (1952-2001) bedacht deze klassieke sf-reeks in 1978, als een BBC-radiohoorspel. Al snel volgden andere media, waaronder een televisiebewerking, een computerspel, drie toneelbewerkingen, negen graphic novels, een speelfilm en heel veel merchandise. De boeken bleven echter het succesvolst. In 2008 kreeg auteur Eoin Colfer toestemming van Adams weduwe om de reeks af te maken met een zesde deel: En dan nog iets**

**Het boek van vreugde Sep 28 2019 \*\*\*Genomineerd voor de Hebban Awards 2017 in de categorie Beste Non-fictie.\*\*\*De Dalai Lama en Desmond Tutu hebben beiden veel tegenslagen moeten overwinnen. Ondanks hun ontberingen - of zoals ze zelf zeggen dankzij hun ontberingen - behoren ze tot de vrolijkste mensen ter wereld. Ter gelegenheid van de 80e verjaardag van de Dalai Lama reisde Desmond Tutu naar Dharamsala om samen HET BOEK VAN VREUGDE te maken als cadeau voor iedereen. Tijdens deze bijzondere week toonden ze met hun eigen uitbundigheid, compassie en humor hoe vreugde kan groeien van een voorbijgaande emotie tot een blijvende, solide levenshouding. Douglas Abrams was bij de gesprekken aanwezig en verwerkte ze tot dit boek. Een boek waar je blij van wordt, alleen al vanwege de liefdevolle manier waarop deze oude wijze mannen met elkaar omgaan, de levensvreugde en speelsheid die ze delen en de respectvolle manier waarop ze hun verschil van inzicht bespreken, want de boeddhistische en de christelijke traditie hebben naast veel overeenkomsten ook duidelijke verschillen. Het is mooi om te lezen hoe onbelangrijk die verschillen worden, want hun kernboodschap is dezelfde: vreugdevol leven bereik je door anderen vreugde te brengen.**

**Theologies of the Gospel in Context Oct 10 2020 Many preachers and teachers of preaching talk about the gospel; few name it. Theologies of the Gospel in Context assembles a gifted group of homiletics who think that preachers need to be able to articulate the gospel not "in general," but in a certain time and place, in context. They consider what gospel sounds like for people under oppression, in capitalist economies, in neocolonial contexts, for survivors of trauma, and for disestablished mainline churches marred by racism. Preachers will appreciate these preacher/scholars' desire to articulate the gospel with clarity, especially since the term is so often left unexplained. Homiletics will see a new genre of doing their work as teachers and researchers in preaching: a vision that helps preaching see itself not just as an adjunct to exegesis or communication, but a place of doing theology. In these pages homiletics is more than technique, it is a truly theological discipline.**

***De zevende functie van taal Jul 19 2021 Weergaloze, zeer lovend ontvangen roman van Laurent Binet, auteur van HHH Parijs, 1980. De beroemde filosoof Roland Barthes wordt in het Quartier Latin door een vrachtwagen overreden en overlijdt. Politiecommissaris Bayard krijgt opdracht de zaak te onderzoeken. Hij is er al snel van overtuigd dat Barthes vermoord is: de filosoof heeft een manuscript nagelaten waarin hij beschrijft wat de zevende functie is van taal en meerdere mensen zitten erachteraan. Het onderzoek voert Bayard langs alle grote Franse schrijvers, denkers en politici. Met veel humor en vaart speelt Binet in deze weergaloze roman zijn bekende spel met feit en fictie, tegen de achtergrond van de veelbewogen jaren tachtig, toen intellectueel Parijs nog het centrum van de wereld was. De pers over De zevende functie van taal 'Een weergaloos misdaadverhaal.' Elsevier 'De zevende functie van taal is een spannende taalkundige thriller, een wervelende avonturenroman, een vermakelijke satire en een metaroman ineen, waarin een ragfijn spel wordt gespeeld met waarheid en fictie.' \*\*\*\* De Standaard 'Een literaire James Bond en tegelijkertijd een hilarisch portret van de grote Franse intellectuelen uit die tijd.' ***Evidence Aug 08 2020 Evidence: Law and Context explains the key concepts of evidence law in England and Wales clearly and concisely, set against the backdrop of the broader political and theoretical contexts. The book focuses on the essential topics commonly found on Evidence courses covering both criminal evidence and civil evidence. It takes a contextual approach discussing how wider policy debates and societal trends have impacted upon the recent evolution of the law in order to provide students with an explanation as to how and why the law has developed. The fifth edition has been revised to include: coverage of R v Hunter 2015 and its impact on good character evidence; developments in procedures relating to young and vulnerable witnesses; and more in-depth coverage of key cases. Learning points summarise the major principles and rules covered and practical examples are used throughout the text to give better understanding as to how the technical rules are applied in practice. Self-test questions are included in the book, helping students to test their understanding and prepare for assessment. Well written, clear and with a logical structure throughout, it contains all the information necessary for any undergraduate evidence law module.***

**The Psychology of Men in Context Apr 03 2020 What does it really mean to say that boys will be boys, men are from Mars, or that contemporary men are in crisis? Does modern psychology support or refute these notions? And how is psychological theory and research about boys and men used in society? The Psychology of Men in Context is an essential introduction to the field which challenges readers to examine psychological research on men, masculinity, and gender, and consider its impact on daily life, through everyday speech, popular media, political rhetoric, and more. The authors offer a range of lenses for studying masculinity, including biology, social learning, social constructionism, feminism, and intersectionality. Demonstrating how these frameworks can be used to understand research on pressing topics such as violence, health, and relationships, the book also considers masculinity in its broader philosophical and historical contexts, equipping readers with the tools needed to connect the psychology of men with other areas of social science. Exercises and prompts to help students relate the research to their own lives are included throughout. Designed for students at undergraduate and graduate level, but suitable for anyone curious about understanding the field from a more critical social scientific perspective, The Psychology of Men in Context will be a valuable introduction to the history, current scholarship, and social implications of the psychological study of men and masculinity.**
