La Città Altra. Storia E Immagine Della Diversità Urbana: Luoghi E Paesaggi Dei Privilegi E Del Benessere, Dell'isolamento, Del Disagio, Della Multiculturalità. Ediz. Italiana E Inglese Sep 03 2022

This volume proposes a rich corpus of papers about the 'Other City', a subject only few times dealt with, but worthy of all our attention: it imposes itself on the scene of international modern and contemporary historiography for its undeniable topicality. Throughout history, the city has always had to deal with social 'otherness', i.e. with class privileges and, consequently, with discrimination and marginalization of minorities, of the less well-off, of foreigners, in short, with the differences in status, culture,

religion. So that the urban fabric has ended up structuring itself also in function of those inequalities, as well as of the strategic places for the exercise of power, of the political, military or social control, of the spaces for imprisonment, for the sanitary isolation or for the 'temporary' remedy to the catastrophes. From the first portraits of cities, made and diffused at the beginning of the fifteenth century for political exaltation purposes or for religious propaganda and for devotional purposes, which often, through increasingly refined graphic techniques, distort or even deny the true urban image, we reach, at the dawn of contemporary history, the new meaning given by scientific topography and new methods of representation; these latter aimed at revealing the

structure and the urban landscape in their objectivity, often unexpected for who had known the city through the filter of 'regime' iconography. The representation of the urban image still shows the contradictions of a community that sometimes includes and even exalts the diversities, other times rejects them, showing the unease of a difficult integration.

*A New Model of Socialism* Dec 26 2021 Economic democracy is essential for creating a truly democratic political sphere. This engaging book uses Marxist theory to hypothesise that capitalism is not a democratic system, and that a modern socialist system of producer cooperatives and democratically managed enterprises is urgently needed. *A New Model of Socialism* focuses on the current crisis of the political Left, a result of the collapse of the Soviet model of society and the decline of statism and kingship. Bruno Jossa expands on existing theories to explore Marx's notions on economic

democracy in a modern setting. He advocates a move away from the centralised planning form of economic socialism towards a self-management system for firms that does not prioritise the interests of one class over another, in order to achieve greater economic democracy. It is argued that the establishment of such a system of democratic firms is the precondition for reducing intervention in the economy, thus enabling the State to perform its ultimate function of serving the public interest. This timely book is ideal for advanced scholars of Marxist, radical and heterodox economic theory, as well as academics with an interest in the rise of socialism in our modern world. Indeed, it will also be of value to all those seeking a viable and practical alternative to existing capitalist and socialist thinking.

*Roman Butrint* Jun 19 2021 Butrint, ancient Buthrotum, has taken many forms in different ages, shaped by the near-constant interaction

between the place, its lagoonal landscape and the Mediterranean. Though Butrint does not appear on any of the records of early Greek colonization to identify it as a Corcyrean settlement, strong links must have existed between it and the metropolitan Corinthian colony of Corfu. Blessed with springs that possessed healing qualities, a small polis was created - extended to incorporate a healing sanctuary dedicated to Asclepius. Julius Caesar, harboring at Butrint in urgent need of supplies to sustain his struggle against Pompey, must have viewed the sanctuary, ringed by largely dried-out marshland, as the perfect site to settle veterans as a colony. It was an obvious cornerstone in controlling the passage from the Adriatic to the Aegean. The early settlers seem to have been limited in number and possibly mainly of civilian status. However, the political changes to the city's magistrature were immediate, and within a relatively short

time-span fundamental changes to the physical make-up of the city were set in motion. Its new Roman status also located Butrint as a directly before the highest authorities in Rome, and within fifteen years or so, under Augustus's guidance following his victory at Actium, the city was refounded as a colony and awarded a pivotal role in Virgil's court-sponsored foundation epic, *The Aeneid*. Now linked to the Victory City of Nicopolis rather than in the shadow of Corfu, Butrint prospered. The urban fabric evolved, sometimes faltered, but was essentially sustained until the later 6th century A.D. This present volume is an assessment of the Roman archaeology, a compilation of studies and field reports that focuses upon the foundation and early history of the colony.

**Town and Infrastructure Planning for Safety and Urban Quality** Oct 31 2019

Today, citizens advocate greater environmental sustainability, better services and the improvement of urban

quality by promoting safer mobility, especially for the most vulnerable road users. Addressing these issues, *Town and Infrastructure Planning for Safety and Urban Quality* contains papers presented at the XXIII International Conference “Living and Walking in Cities” (Brescia, Italy, 15-16 June 2017). The contributions discuss town planning issues, look at best practices and research findings across the broad spectrum of urban and transport planning, with particular attention to the safety of pedestrians in the city. The main topics of the book are: - Urban regeneration. A focus on walkability (vulnerable road users; boosting and planning soft mobility) - Road safety and urban planning - vulnerable road users: planning for safety (integrated land use and transport planning; methodological approaches and case studies; integrated tools for town and transport planning; shaping public spaces and walkability; transport solutions for tourism)

- Innovative and traditional solutions for Italian cities - Extra-European approaches to town and infrastructure planning - Different perspectives in road safety: prevention, infrastructure, sharing - Advances in road safety *Town and Infrastructure Planning for Safety and Urban Quality* is a powerful plea for a multi-disciplinary and comprehensive approach to urban mobility and planning, and will be of interest to academics, consultants and practitioners interested in these areas.

Uno dei fattori di competitività del nostro Paese è certamente la capacità di promuovere le innovazioni e di intensificare la ricerca industriale; le piccole imprese appaiono deboli sul piano della capacità innovativa e i contributi dello Stato per la ricerca diminuiscono notevolmente. Pertanto si diffonde sempre di più la voglia di approfittare a pieno delle opportunità create a livello

internazionale. L'esperienza nord americana ha evidenziato che l'impostazione e la gestione di azioni complesse che portano ad un vantaggio competitivo del sistema Paese richiedono sia culture manageriali e professionali specifiche, sia metodologie e strumenti appropriatamente sperimentati. Il volume è rivolto a tutti gli studiosi, ricercatori e imprenditori interessati ai diversi filoni della politica della ricerca riconducibili all'ambito dell'innovazione e del trasferimento tecnologico in ambito internazionale.

**La Stregoneria in Italia** Nov 12 2020 Sin dai tempi più arcaici gli uomini hanno cercato di contrastare le manifestazioni più estreme della Natura attraverso un'azione magica, che si è evoluta nei secoli generando credenze, riti e tabù. In Italia, in particolare, è sorta così una religione popolare di antica origine pagana in grado di proteggere dalla Natura ma soprattutto di rispondere alle esigenze terrene e materiali del devoto. Il libro affronta le espressioni di stregoneria popolari e rurali italiane, in un viaggio tra i rituali e gli scongiuri che sanciscono i momenti di passaggio della vita umana in un attento quadro degli antichi usi e costumi della nostra penisola.

### *Gender and Migration in Italy*

May 07 2020 Recent migratory flows to Europe have brought about considerable changes in many countries. Italy in particular offers a unique point of view, since it is possible to observe not only the way migration has changed specific features of the country, but also how it is intertwined with gender relations. Considering both the type of migration that has affected Italy and the consequent measures adopted by the Government, a variety of distinctive elements may be seen. By providing a broad and more complete picture of the Italian perspective on gender and migration, this book makes a valuable contribution to the wider debate. The contributions consider the problematic linkage between gender and migration, as well as analyse particular aspects including Italian colonial past, domestic work, self-determination, access to social services, second-generation migrant women, family law, multiculturalism and religious

symbols. Taking an empirical and theoretical approach, the volume underlines both the multifaceted problems affecting migrant women in Italy and the way in which questions raised in other countries are introduced and redefined by Italian scholarship. The book presents a valuable resource for researchers, academics and policy-makers working in the areas of migration and gender studies.

### **Oil Economics and Policy**

May 19 2021 In 20th century society, oil has played a fundamental role not only from the economic point of view, but also from the point of view of the political relationships established between major Western countries and oil-producing countries. A survey into oil history, its market dynamics and price evolution, is essential for a deeper understanding of modern industry and world economy, as world development depends on oil supplies, prices, and its political accessibility. *Oil Economics and Policy* follows

the historical development of the oil industry, and inevitably also covers many aspects of energy resource economy. In so doing, it pays particular attention to one aspect, namely, the fixing of oil prices. This is mainly in order to attempt to understand whether, and by how much, the structural transformations that the oil industry has undergone during the various phases of its existence - and the various market structures deriving from them - have influenced the dynamics of oil prices. Alberto Clô is Professor of Industrial Economics at the University of Bologna. Minister of Industry and Trade during Lamberto Dini's government (January 1995-May 1996), he has been a member both of national and international scientific boards and of ministerial committees. He is author of numerous writings on industrial and energy economies and editor-in-chief of the journal *Energia*.

**Making EI Work** Aug 22 2021  
Since the inception and design of Canada's Employment

Insurance (EI) program, the Canadian economy and labour market have undergone dramatic changes. It is clear that EI has not kept pace with those changes, and experts and advocates agree that the program is no longer effective or equitable. Making EI Work is the result of a panel of distinguished scholars gathered by the Mowat Centre Employment Insurance Task Force to analyze the strengths, weaknesses, and future directions of EI. The authors identify the strengths and weaknesses of the system, and consider how it could be improved to better and more fairly support those in need. They make suggestions for facilitating a more efficient Canadian labour market, and meeting the human capital requirements of a dynamic economy for the present and the foreseeable future. The chapters that comprise Making EI Work informed the task force's final recommendations, and form an engaging dialogue that makes the case for, and defines the parameters of, a

reformed support system for Canada's unemployed. **Perpetuum Mobile** Apr 17 2021 Giuseppe Tartini è un giovane violinista che come tanti, per realizzare i propri sogni, è posto davanti al dilemma se seguire la via più giusta per raggiungerli o affidarsi a percorsi più rapidi, ma oscuri. All'inizio del XVIII secolo egli si impossessa, con l'inganno, di alcuni spartiti musicali, dando così inizio ad una vita di grandi successi, ma travagliata. L'intelligenza e l'intraprendenza gli consentiranno di progredire negli studi della più varia natura, tra cui la Magia e la Teurgia, e quindi di scoprire il segreto per non morire. Molti anni dopo, la vita del conte decaduto, André D'Aguilles, attento studioso di antropologia del Sud-est europeo, viene sconvolta dalle Guerre Napoleoniche. Audace ufficiale di cavalleria verrà involontariamente risucchiato nella terribile Crisi di Vampirismo che sconvolgeva l'area carpato-balcanico-danubiana. Fra Moravia, Regno d'Ungheria e Balkan selvaggio,

fra indovinelli, saggi ebrei sefarditi, duelli, dolore, morte, sangue e folklore si sviluppa la caccia al misterioso Signore dei Vampiri. Tartini, Paganini e Andrè simboleggiano il Male e il Bene, e le scelte che fin da giovani si è chiamati a fare. Lettere Sirmiensi per servire alla storia della deportazione de'cittadini Cisalpini in Dalmazia ed Ungheria. [By F. Apostoli.] Seconda edizione Aug 10 2020

Puoi ottenere una vita di qualità se: lo vuoi veramente, conosci le giuste strategie e sei disposto ad impegnarti. In oltre 10 anni di esperienza come insegnante di educazione fisica e mental coach, Vitalba Sagona ha raccolto in questo libro le migliori strategie per il benessere fisico e mentale. *Isocracy* Feb 13 2021 In the twentieth century there were two great political and social

paradigms, the liberal-democratic and the libertarian (in its various socialist, anarchist, and communist delineations). The central idea of the first approach is isonomy: the exclusion of any discrimination on the basis that legal rights are afforded equally to all people. The central idea of the second approach is rather to acknowledge and address a broader spectrum of known inequalities. Such an approach, Bellanca argues, allows the pursuit of pluralism as well as a more realistic and complex view of what equality is. Here he analyzes the main economic and political institutions of an isocratic society, and in so doing, effectively outlines how a utopian society can be structurally and anthropologically realized. This book is ideal reading for an audience interested in the critique of contemporary capitalism through a renewed perspective of democratic socialism and leftist libertarianism. Nicolò Bellanca is Associate Professor of

Development Economics at the University of Florence, Italy. He is the author of a broad array of scholarly articles, books and textbooks about both the history of economic thought and development economics. His current research focuses on the theory of institutional change.

Liver Growth and Repair Sep 22 2021 Nelson Fausto The Greek myth of Prometheus with its picture of a vulture feasting on its chained victim has traditionally provided a visual image of liver regeneration. It is a powerful and frightening representation but if one were to substitute the vulture by a surgeon and Prometheus by a patient laying on a properly prepared operating table, the outcome of the procedure would not differ significantly from that described by Greek poets. Yet few of us who work in the field have stopped long enough to ask where this myth originated. Did the poet observe a case of liver regeneration in a human being? Was it brilliant intuition or perhaps, literally, just a 'gut feeling' of a poet looking for

good rhymes that led to the prediction that livers grow when part of the tissue is removed?

This book does not attempt to solve these historical issues. It does, instead, cover in detail some of the major modern themes of research on liver regeneration, injury and repair. As indicated in Dr. N. Bucher's chapter, the modern phase of experimental studies on liver regeneration started in 1931 with the publication by Higgins and Anderson of a method to perform a two-thirds resection of the liver of a rat. The technique described has 3 remarkable features: 1) it is highly reproducible, resulting in the removal of 68% of the liver, 2) it has minimal if any mortality, and 3) it consists only of blood vessel ligation and does not involve cutting through or wounding hepatic tissue.

### **Producer Cooperatives as a New Mode of Production**

May 31 2022 The notion that there is no alternative to capitalism emerged after the fall of the Berlin Wall and made

rapid headway due to increasing economic globalisation. More recently, this belief that there is no viable alternative has held firm despite the financial crisis, high unemployment levels and an ever-increasing gap between rich and poor. However, since the appearance of Benjamin Ward's seminal 1958 article, economic theorists have been developing a workable alternative: a system of self-managed firms. The core argument outlined in this book is that a well-organised system of producer cooperatives would give rise to a new mode of production and, ultimately, a genuinely socialist society. This argument is developed through three key steps. First, following on from Jaroslav Vanek's definition, it is argued that a 'Labour-Managed Firm', a firm which strictly segregates capital incomes from labour incomes, would implement a new production mode because it would reverse the pre-existing relation between capital and labour. Second, given that a

system of these 'Labour-Managed Firm' cooperatives would reverse the capital-labour relationship, it is suggested that this would constitute a form of market socialism. Third, it is argued that compared to capitalism a system of producer cooperatives offers a wealth of advantages, including the potential for efficiency gains, the eradication of unemployment and the end of exploitation. Ultimately, this book concludes that self-management could take the place of central planning in Marxist visions for the future.

Quiete e visione profonda Jan 03 2020 "... Cominciai a seguire l'insegnamento del Buddha dal momento in cui capii che il vero e proprio non è una religione - una fede in una Divinità e in una relazione con Essa, comunque articolata -, ma un umanesimo e, più

concretamente, un sistema etico-psicologico che propone metodi pratici per raggiungere, qui e ora, la piena realizzazione delle proprie potenzialità benefiche. In Occidente, l'insegnamento del Buddha è stato più volte 'interpretato' in senso più o meno teistico: il Buddha come Dio o come sua rappresentazione/manifestazione. Ma quando mi resi conto che il Buddha (il Risvegliato) non pretendeva essere un Dio o un profeta, bensì esempio supremo di ciò che l'essere umano può diventare, mi dissi: "Questo sì che ha un senso: il Risvegliato insegna agli altri, come risvegliarsi". Questo testo vuole contribuire alla comprensione della natura pratica e concreta dell'insegnamento del Buddha, il cui cuore è l'esercizio meditativo. Vi sono delineate le sue caratteristiche essenziali, per offrire al lettore non specializzato un'introduzione generale, che possa incoraggiare a farne esperienza. "Nel 1972 in Sri Lanka (...) ebbi la fortuna di leggere le parole del Buddha: la spiegazione di quello che lui

stesso aveva sperimentato, e di come anche altri possano arrivare alla stessa esperienza. E così scoprii la straordinaria semplicità e la profonda concretezza del sentiero di quiete e visione profonda, da lui indicato. Mi dedicai, quindi, allo studio dell'antica lingua pali e dei testi. Nel 1974 feci un corso di meditazione Vipassana con il maestro indobirmano S.N. Goenka; questa pratica dell'insegnamento del Buddha mi convinse ad accettare la sua validità, come guida di vita, e ad impegnarmi da allora al continuativo esercizio meditativo di Vipassana. Ben sapendo che è una strada lunga, a ogni passo mi appare giusta e benefica." Discipline Filosofiche (2007-2)
