**The Paretian School and Italian Fiscal Sociology** Jan 31 2020 In the 1930s, a Pareto vogue emerged in the English-speaking world. In Italy, however, the Paretian episode was already well established, with many Italian economists investigating the relationship between economics and sociology based on Pareto's contributions. This is a study of the Paretian school and its 'fiscal sociology'.

**The Enlightenment That Failed** Sep 08 2020 The Enlightenment that Failed explores the growing rift between those Enlightenment trends and initiatives that appealed exclusively to elites and those aspiring to enlighten all of society by raising mankind's awareness, freedoms, and educational level generally. Jonathan I. Israel explains why the democratic and radical secularizing tendency of the Western Enlightenment, after gaining some notable successes during the revolutionary era (1775-1820) in numerous countries, especially in Europe, North America, and Spanish America, ultimately failed. He argues that a populist, Robespierriente tendency, sharply at odds with democratic values and freedom of expression, gained an ideological advantage in France, and that the negative reaction this generally provoked caused a more general anti-Enlightenment reaction, a surging anti-intellectualism combined with forms of religious revival that largely undermined the longings of the deprived, underprivileged, and disadvantaged, and ended by helping, albeit often unwittingly, conservative anti-Enlightenment ideologies to dominate the scene. The Enlightenment that Failed relates both the American and the French revolutions to the Enlightenment in a markedly different fashion from how this is usually done, showing how both great revolutions were fundamentally split between bitterly opposed and utterly incompatible ideological tendencies. Radical Enlightenment, which had been an effective ideological challenge to the prevailing monarchical-aristocratic status quo, was weakened, then almost entirely derailed and displaced from the Western consciousness, in the 1830s and 1840s by the rise of Marxism and other forms of socialism.

**Donuteconomie** Feb 23 2022 De economische wetenschap ligt in duigen. De financiële crisis werd niet voorspeld, laat staan voorkomen. Achterhaalde economische theorieën hebben een wereld mogelijk gemaakt waarin nog steeds extreme armoede heerst, terwijl de allerrijksten elk jaar rijker worden. Economisch handelen tast de natuur zo sterk aan dat onze toekomst gevaar loopt. In Donuteconomie laat econoom Kate Raworth zien hoe het mainstream economische denken ons op een dwaalweg heeft gezet. Ze tekent de routekaart die ons kan leiden naar het punt waarop in de behoefte van iedereen kan worden voorzien, zonder dat dit ten koste gaat van onze planeet. Dit alles resulteert in een alternatief en innovatief economisch model voor de 21e eeuw.
