A First Look at Communication Theory Dec 04 2020 "A Balanced Approach to Theory Selection. We've written A First Look for students who have no background in communication theory. It's designed for undergraduates enrolled in an entry-level course, regardless of the students' classification. The trend in the field is to offer students a broad introduction to theory relatively early in their program. But if a department chooses to offer its first theory course on the junior or

senior level, the course will still be the students' first comprehensive look at theory, so the book will meet them where they are."--

The Public Administration Workbook May 29 2020 Public administration is a craft that demands real-world application of concepts and theories often learned in a classroom. Yet many students find it difficult to make the leap from theory to practice completely unaided. The *Public Administration Workbook*, 8e is specifically designed with the theoretically-grounded, practice-minded student in mind. It reviews scholarship in political science, law, industrial psychology, and the sociology of organizations and then allows students to see how these intellectual fields inform the analytical and managerial tasks that comprise public administration. Where standard public administration textbooks examine the nature of public agencies and explain how bureaucracies relate to other institutions, this workbook promotes a more effective way of learning--by doing--and more directly prepares those who will pursue careers in public agencies. Each chapter begins with a discussion of relevant concepts and scholarship before moving into a hands-on exercise analyzing core analytical and management challenges. This edition includes an all-new exercise on contract negotiation, many international examples interwoven throughout the book, and a fully updated HRM section to reflect alternative ranking and compensation systems. Each chapter is further supported by a detailed Instructor's Manual written by the author to guide instructors on solutions, explanations, and ideas for using or modifying the exercises to fit a variety of course needs, as well as downloadable datasets and exercises, providing students with a unique opportunity to apply and test classroom concepts outside of the job.

When Moses Meets Aaron Nov 22 2019 With the number of large congregations rising in the U.S., these congregations are increasingly dependent upon a greater number of staff to meet the needs of their diverse collection of members. As leaders of multi-staff teams, senior clergy must play the dual role of both Moses and Aaron—both visionary and detail-oriented leader—in order for their large congregations to thrive. They need to be skilled with the tools of human resource management, while at the same time setting a vision and inspiring both staff and congregation. Unfortunately, until now there have been few resources for senior clergy who lead multi-staff teams. Working without adequate models and tools, senior clergy of large congregations often find themselves with passionate, dedicated staff members who are moving in different directions, competing over limited resources and attention. They end up with questions of how to evaluate the performance of staff and direct their efforts. They find themselves using time, attention, and resources to care for staff rather than using staff as a resource to care for the mission of the congregation. Longtime Alban senior consultant Gil Rendle and Alban senior consultant Susan Beaumont have developed *When Moses Meets Aaron* to help clergy responsible for several-member staff teams navigate these unknown waters. They have taken the best of human resource practices and immersed them in a congregational context, providing a comprehensive manual for supervising, motivating, and coordinating staff teams. Rendle and Beaumont give both detailed and big picture guidance on hiring, job descriptions, supervision, performance evaluation, staff-team design, difficult staff behavior, and more. Their combined experience in consulting and training with staff and leaders of large congregations proves invaluable in this manual for today's leadership demands.

Rood, wit & koningsblauw Jun 10 2021 Wat gebeurt er als de presidentszoon valt voor de prins? Je leest het in 'Rood, wit en koningsblauw' van Casey McQuiston. "Het is bijna onmogelijk om mee te maken hoe Alex voor Henry valt zonder zelf verliefd op hem te worden - op hen allebei, én op dit briljante, geweldige boek." Dat schreef de New York Times Book Review bij verschijning van 'Rood,

wit en koningsblauw' van Casey McQuiston. Deze heerlijke romcom gaat over Alex, zoon van de Amerikaanse president, en Henry, Britse prins. Meteen zodra zijn moeder wordt verkozen tot president, wordt Alex Claremont-Diaz gebombardeerd tot Amerikaanse royalty: hij is knap, charismatisch en nog intelligent ook. Het publiek vreet hem op. Eén probleempje: Alex ligt in de clinch met een échte prins, Henry, aan de andere kant van de grote plas. En als de tabloids daar lucht van krijgen, worden Alex en Henry gedwongen om te doen alsof ze het goed hebben gemaakt. Maar wat begint als een nepvriendschap, groeit uit tot iets diepers en veel gevaarlijkers. Kan liefde de wereld redden? Ook als die liefde er anders uitziet dan verwacht? Casey McQuiston sleept je met 'Rood, wit en koningsblauw' mee in een verhaal vol humor en liefde.

Whatever Happened to the Music Teacher? Dec 24 2019 Thirty years ago, Anglo-American politicians set out to make the public sector look like the private sector. These reforms continue today, ultimately seeking to empower elected officials to shape policies and pushing public servants to manage operations in the same manner as their private-sector counterparts. In *Whatever Happened to the Music Teacher?*, Donald Savoie provides a nuanced account of how the Canadian federal government makes decisions. Savoie argues that the traditional role of public servants advising governments on policy has been turned on its head, and that evidence-based policy making is no longer valued as it once was. Policy making has become a matter of opinion, Google searches, focus groups, and public opinion surveys, where a well-connected lobbyist can provide any answers politicians wish to hear. As a result, public servants have lost their way and are uncertain about how they should assess management performance, how they should generate policy advice, how they should work with their political leaders, and how they should speak truth to political power - even within their own departments. Savoie demonstrates how recent management reforms in government have caused a steep rise in the overhead cost of government, as well as how the notion that public administration could be made to operate like the private sector has been misguided and costly to taxpayers. Abandoning "textbook" discussions of government and public service, *Whatever Happened to the Music Teacher?* Is a realistic portrayal of how policy decisions are made and how actors and institutions interact with one another and exposes the complexities, contradictions present in Canadian politics and governance.
