Advancements in Sustainable Architecture and Energy Efficiency Apr 20 2022 Thermal comfort and indoor air quality (IAQ) issues have gained significant interest in the scientific and technical community involved in building performance analysis and other related subjects. In terms of thermal comfort, the achievement and maintenance of a thermally acceptable indoor environment is affected by energy costs, and energy poverty is a widespread problem globally. There is a call for energy-efficient architecture for a developed and sustainable world. However, with the use of renewable energy that increased considerably in recent years, new technical challenges arose for the energy sector. Consumers are key players in this context, as flexibility in demand is crucial to cope with the intermittent nature of most renewable energy sources. Active demand-side participation is particularly important to ensure the efficient use of locally and globally available energy. Sustainability, human comfort, and healthy living environments have become top priorities. *Advancements in Sustainable Architecture and Energy Efficiency* explores how housing is a key health factor for individuals and looks at factors such as air quality, ventilation, hygrothermal comfort, lighting, physical environment, building efficiency, and other areas as important pieces in healthy architecture. It discusses how the poor application of these parameters can directly affect human health and how sustainable architecture provides a solution. Beyond just labeling the important facets of architecture for healthy living, this book will look at different perspectives of energy consumption and demand to ensure sustainable energy, increased energy efficiency, improved energy policies, and reasonable energy costs for homes. This book is ideal for architects, designers, engineers, energy engineers, environmental scientists, practitioners, researchers, academicians, and students interested in architecture that is both conducive to healthy living and energy efficiency.

Solito (Spanish Edition) Oct 22 2019 RECOMENDADO POR JENNA BUSH EN SU CLUB DE LECTURA DEL TODAY SHOW «En esta conmovedora autobiografía que no podrás soltar, un joven poeta relata la inolvidable historia de su desgarradora migración hacia Estados Unidos

desde El Salvador a los nueve años, considerada 'el viaje mítico de nuestra era'.» —Sandra Cisneros Viaje. Mis padres empezaron a usar esa palabra hace más o menos un año: “un día vas a hacer un viaje para estar con nosotros. Como una aventura”. La aventura de Javier es una travesía de tres mil millas desde su pequeño pueblo en El Salvador, a través de Guatemala y México, hacia la frontera de Estados Unidos. Dejará atrás a sus queridos abuelos y su tía para reunirse con una madre que se fue cuatro años atrás y con un padre al que prácticamente no recuerda. Al viajar solo, a excepción de un grupo de extraños y un coyote contratado para guiarlos a salvo, Javier debía tardar solo dos semanas en llegar. A los nueve años, todo lo que Javier puede imaginar es correr a los brazos de sus padres, acurrucarse en la cama entre ellos y vivir bajo el mismo techo otra vez. No puede prever los peligrosos trayectos en bote, las interminables caminatas por el desierto, las armas apuntándole, los arrestos y los engaños que le esperan. Tampoco sabe que esas dos semanas se alargarán hasta dos meses y le cambiarán la vida, junto a un grupo de extraños que acabará por cobijarlo como una familia improvisada. Una autobiografía tan apasionante como emotiva, *Solito* no solo nos ofrece un recuento íntimo e inmediato de un viaje sinuoso y casi imposible, sino la milagrosa bondad y el amor que se entrega en los momentos más inesperados. Solito es la historia de Javier, pero es también la historia de millones más que no tuvieron otra opción más que irse de casa. ENGLISH DESCRIPTION READ WITH JENNA BOOK CLUB PICK AS FEATURED ON TODAY «A young poet tells the unforgettable story of his harrowing migration from El Salvador to the United States at the age of nine in this moving, page-turning memoir hailed as "the mythic journey of our era".» —Sandra Cisneros Trip. My parents started using that word about a year ago —“one day, you’ll take a trip to be with us. Like an adventure.” Javier’s adventure is a three-thousand-mile journey from his small town in El Salvador, through Guatemala and Mexico, and across the U.S. border. He will leave behind his beloved aunt and grandparents to reunite with a mother who left four years ago and a father he barely remembers. Traveling alone except for a group of strangers and a "coyote" hired to lead them to safety, Javier’s trip is supposed to last two short weeks. At nine years old, all Javier can imagine is rushing into his parents’ arms, snuggling in bed between them, and living under the same roof again. He cannot foresee the perilous boat trips, relentless desert treks, pointed guns, arrests and deceptions that await him; nor can he know that those two weeks will expand into two life-altering months alongside a group of strangers who will come to encircle him like an unexpected family. A memoir as gripping as it is moving, *Solito* not only provides an immediate and intimate account of a treacherous and near-impossible journey, but also the miraculous kindness and love delivered at the most unexpected moments. *Solito* is Javier’s story, but it’s also the story of millions of others who had no choice but to leave home.

The Economics of the Global Defence Industry Dec 24 2019 This book makes an original contribution to our knowledge of the world’s major defence industries. Experts from a wide range of different countries – from the major economies of North America and Western Europe to developing economies and some unique cases such as China, India, Singapore, South Africa and North Korea – describe and analyse the structure, conduct and performance of the defence industry in that country. Each chapter opens with statistics on a key nation’s defence spending, its spending on defence R&D and on procurement over the period 1980 to 2017, allowing for an analysis of industry changes following the end of the Cold War. After the facts of each industry, the authors describe and analyse the structure, conduct and performance of the industry. The analysis of ‘structure’ includes discussions of entry conditions, domestic monopoly/oligopoly structures and opportunities for competition. The section on ‘conduct’ analyses price/non-price competition, including private and state funded R&D, and ‘performance’ incorporates profitability, imports and exports together with spin-offs and technical progress. The conclusion explores the future prospects for each nation’s defence

industry. Do defence industries have a future? What might the future defence firm and industry look like in 50 years' time? This volume is a vital resource and reference for anyone interested in defence economics, industrial economics, international relations, strategic studies and public procurement.

The Spanish Civil War Nov 22 2019 A masterpiece of the historian's art, Hugh Thomas's *The Spanish Civil War* remains the best, most engrossing narrative of one of the most emblematic and misunderstood wars of the twentieth century. Revised and updated with significant new material, including new revelations about atrocities perpetrated against civilians by both sides in this epic conflict, this "definitive work on the subject" (Richard Bernstein, *The New York Times*) has been given a fresh face forty years after its initial publication in 1961. In brilliant, moving detail, Thomas analyzes a devastating conflict in which the hopes, dreams, and dogmas of a century exploded onto the battlefield. Like no other account, *The Spanish Civil War* dramatically reassembles the events that led a European nation, in a continent on the brink of world war, to divide against itself, bringing into play the machinations of Franco and Hitler, the bloodshed of Guernica, and the deeply inspiring heroics of those who rallied to the side of democracy. Communists, anarchists, monarchists, fascists, socialists, democrats -- the various forces of the Spanish Civil War composed a fabric of the twentieth century itself, and Thomas masterfully weaves the diffuse and fascinating threads of the war together in a manner that has established the book as a genuine classic of modern history.

Science Fiction in Translation May 09 2021 *Science Fiction in Translation: Perspectives on the Global Theory and Practice of Translation* focuses on the process of translation and its implications. The volume explores the translation of works of science fiction (SF) from one language to another and the translation of SF tropes, terms, and ideas of SF theory into cultures outside the West. Providing a comprehensive examination of the state of translation into English, the essays consider how representative the body of translated work of SF is from the source language/culture. It also considers the social, political, and economic choices in selecting a work to translate. The book illustrates the dramatic growth both in SF production outside the Anglosphere, the translation of works from other languages into English, and the practice of translating English-language SF into other languages. Altogether, the essays map the theory, practice, and business of SF translation around the world.

Umami (Spanish Edition) Apr 08 2021 *Umami es el debut literario de Laia Jufresa y Publishers Weekly ya lo considera uno de los hot books del 2015. Ana quiere plantar una milpa en su traspatio, en pleno Distrito Federal. Pero en la tierra hay altos contenidos de plomo y la casa donde vive está plagada de ausencias. Su hermana murió, sus papás están de luto y sus hermanos de campamento; su única amiga se fue a buscar a quien la abandonó cuatro años atrás. Menos mal que queda Alfonso. Alfonso es un antropólogo especializado en alimentación prehispánica. Es viudo y dueño de la pequeña urbanización Campanario. Él mismo la diseñó a partir de un esquema de la lengua humana y dio a las casas el nombre de cada uno de los cinco sabores que percibimos: Dulce, Salado, Amargo, Ácido y Umami. En duelo, los habitantes de la comunidad desearían echar el tiempo atrás. Tejida al revés, esta novela se lo permite. Mientras Ana remueve la tierra y clava las semillas, sus vecinos hurgan en el pasado. Pero el traspatio de la memoria está minado con preguntas: ¿quién fue mi mujer? ¿Por qué se fue mi mamá? Y, ¿cómo es posible que se ahogara una niña que sabía nadar? ENGLISH DESCRIPTION Shortlisted for the Best Translated Fiction Book Award, 2017 “Ms. Jufresa: Where the f*#! did you learn to tell a story so well?” —Álvaro Enrigue, award-winning author of *Sudden Death* As heard on NPR's Weekend Edition with Scott Simon It started with a drowning. Deep in the heart of Mexico City, where five houses cluster around a sun-drenched courtyard, lives Ana, a precocious twelve-year-old who spends her days buried in Agatha Christie novels to forget the mysterious death of her little sister years earlier. Over the summer she decides to plant a milpa in her backyard, and as she digs the ground and plants her seeds, her neighbors in turn delve into*

their past. The ripple effects of grief, childlessness, illness and displacement saturate their stories, secrets seep out and questions emerge — Who was my wife? Why did my Mom leave? Can I turn back the clock? And how could a girl who knew how to swim drown? In prose that is dazzlingly inventive, funny and tender, Laia Jufresa immerses us in the troubled lives of her narrators, deftly unpicking their stories to offer a darkly comic portrait of contemporary Mexico, as whimsical as it is heart-wrenching.

Health Through Inner Body Cleansing Jul 31 2020 The Mayr program, developed by the Austrian physician Dr. Franz Xaver Mayr (1875-1965), is an intensive regime lasting several weeks. It includes therapeutic fasts to rest the digestive tract, and it features a special diet to train proper mastication. This diet program is complemented with abdominal massage, hydrotherapy, and exercise. By following the F. X. Mayr method, patients can rejuvenate their dietary system and eliminate a whole host of ailments—from aches and pains, to depression, fatigue, and serious cardiac disorders. At the same time, they can reduce weight, improve their skin, and boost their sense of well-being. The author Dr. Erich Rauch was a personal student of Dr. F. X. Mayr. Over decades he supervised more than 40,000 Mayr therapies. For the practitioner as well as the patient in the clinic, his in-depth guide is the leading authority on the F. X. Mayr method. As a companion book it provides effective support for each stage of this successful therapy.

Translating and Interpreting Justice in a Postmonolingual Age Aug 12 2021 Postmonolingualism, as formulated by Yildiz, can be understood to be a resistance to the demands of institutions that seek to enforce a monolingual standard. Complex identities, social practices, and cultural products are increasingly required to conform to the expectancies of a norm that for many is no longer considered reasonable. Thus, in this postmonolingual age, it is essential that the approaches and initiatives used to counter these demands aim not only to understand these hyper-diverse societies but also to deminoritize underprivileged communities. ‘Translating and Interpreting Justice in a Postmonolingual Age’ is an attempt to expand the limits of postmonolingualism as a framework for exploring the possibilities of translation and interpreting in mediating between the myriad of sociocultural communities that coexist today. Challenging assumptions about the role of translation and interpreting, the contributions gathered in this volume focus on intercultural and intergroup understanding as a process and as a requisite for social justice and ethical progress. From different but complementary approaches, practical experiences and existing legal and policy frameworks are scrutinized to highlight the need for translation and interpreting policies in legal and institutional contexts in multicultural societies. Researchers and policymakers in the fields of translation and interpreting studies, multiculturalism and education, and language and diversity policies will find inspiring perspectives on how legal and institutional translation and interpreting can help pursue the goals of democratic societies.

Metabolism at a Glance Oct 02 2020 Metabolism at a Glance presents a concise, illustrated summary of metabolism in health and disease. This essential text is progressively appropriate for introductory through to advanced medical and biochemistry courses. It also provides a succinct review of inborn errors of metabolism, and reference for postgraduate medical practitioners and biomedical scientists who need a resource to quickly refresh their knowledge. Fully updated and extensively illustrated, this new edition of Metabolism at a Glance is now in full colour throughout, and includes new coverage of sports biochemistry; the metabolism of lipids, carbohydrates and cholesterol; glyceroneogenesis, ?-

oxidation and β -oxidation of fatty acids. It also features the overlooked “Krebs Uric Acid Cycle”. Metabolism at a Glance offers an accessible introduction to metabolism, and is ideal as a revision aid for students preparing for undergraduate and USMLE Step 1 exams.

Chronic Pain in Dogs Mar 19 2022 This book aims to introduce veterinary surgeons to a new concept of pain for a better understanding of what pain is and how it occurs. By describing pain pathways and their regulation, as well as the sophisticated therapeutic systems that are currently being developed, this book shows its readers how to interpret pain, and how identify it as a pathology in itself and treat it as such.

Cadáver exquisito (Premio Clarín 2017) / Tender is the Flesh Jul 19 2019 PREMIO CLARÍN 2017 En esta despiadada distopía -tan brutal como sutil, tan alegórica como realista-, Agustina Bazterrica inspira, con el poder explosivo de la ficción, sensaciones y debates de suma actualidad. La súbita aparición de un virus letal que ataca a los animales modifica de manera irreversible el mundo: desde las fieras hasta las mascotas deben ser sistemáticamente sacrificadas, y su carne ya no puede ser consumida. Los gobiernos enfrentan la situación con una decisión drástica: legalizando la cría, reproducción, matanza y procesamiento de carne humana. El canibalismo es ley y la sociedad ha quedado dividida en dos grupos: los que comen y los que son comidos. Marcos Tejo, encargado general del frigorífico Krieg, separado de su esposa y a cargo de su padre, es un oscuro burócrata. El día en que recibe como regalo una mujer criada para el consumo, las tentaciones lo transforman en una conciencia peligrosa de pliegues truculentos que lo llevará a transgredir las nuevas normas hasta límites que la sociedad desconoce. ¿Qué resto de humanidad cabe cuando los muertos son cremados para evitar su consumo? ¿Quién es el otro si, de verdad, somos lo que comemos? ENGLISH DESCRIPTION The electrifying, award-winning, internationally bestselling novel about a dystopian world in which animals have been wiped out, humans are being harvested for food, and society has been divided into those who eat and those who are eaten. Working at the local processing plant, Marcos is in the business of slaughtering humans—though no one calls them that anymore. His wife has left him, his father is sinking into dementia, and Marcos tries not to think about how he makes a living. After all, it happened so quickly. First, it was reported that animals had been infected with a virus and their meat had become poisonous. Then governments initiated the Transition. Now, human meat—“special meat”—is legal. Marcos tries to stick to numbers, consignments, processing. Then one day he’s given a gift: a specimen of the finest quality. He leaves her in his barn, tied up, a problem to be disposed of later. But she haunts Marcos. Her trembling body, her watchful, knowing eyes. Though he’s aware that any form of personal contact is forbidden on pain of death, little by little he starts to treat her like a human being. And soon, he becomes tortured by what has been lost—and what might still be saved. From Agustina Bazterrica, one of Latin America’s most celebrated and original new voices, *Tender Is the Flesh* is propulsive and profound, a searing cautionary tale about the cost of consumption and the ties that bind and break us.

Pure Space (Spanish Edition) Aug 24 2022 This book may seem a simple accumulation of twenty-one public space projects in eight Latin American cities. On closer inspection, the presentation of project descriptions, photographs, and annotated drawings reflects a concern to analytically explain the operative aspects at work. The publication is not intended to serve only as a catalogue, guide, or manual on how to produce public space in spontaneous settlements. Rather, it goes beyond the aims of an index of best practices. It is intended, instead, as an empirical base for a critical and theoretical engagement with the problematic of development, social inclusion, public investment, (in)formal settlement, civil society and the public sphere. The publication achieves its final function at this third level, by providing a compelling argument

to expand the agency of architects and urban designers and creatively find ways of justifying, financing, and building public spaces in communities —spaces that have a catalytic effectiveness in achieving significant urban and social transformation. This book was awarded by a Graham Foundation Grant and CAF Development Bank of Latin America. **FEATURED CASE STUDIES:** CONSERVATION 72 Linear parks along the Estero Salado | Guayaquil, Ecuador 80 National Park Babilonia and Chapu Mangueira | Rio de Janeiro, Brazil 88 Urban agriculture along the Rimac River | Lima, Peru WASTE MANAGEMENT 96 Moravia Ecological Park | Medellin, Colombia 104 Plaza La Cruz, La Palomera | Caracas, Venezuela RISKMANAGEMENT 112 El Guasmo Beach, floodable park | Guayaquil, Ecuador 120 Safety plazas in Santa Mar.a El Triunfo | Lima, Peru 128 Recovery of the Juan Bobo Creek | Medellin, Colombia INFRASTRUCTURE 136 Northeast metro cable parks Comuna 1, La Popular | Medellin, Colombia 144 Barrio Las Independencias escalators and walkways | Medellin, Colombia 152 Funicular in Dona Marta | Rio de Janeiro, Brazil 160 Complexo do Alemo | Rio de Janeiro, Brazil 168 Ecotecnia Urbana Miravalle | Mexico City, Mexico PAVEMENT, PATHS AND THE SPACE SURROUNDING BUILDINGS 176 Pavement, paths and stairs Cerro Santo Doming and Cerro Toro | Valparaíso, Chile 184 Cerro Santa Ana urban rehabilitation | Guayaquil, Ecuador 192 Fernando Botero Library | Medellin, Colombia 200 Moravia Cultural Center | Medellin, Colombia 208 Espacio Crianza and community programs | Rio de Janeiro, Brazil 216 Plaza in Villa Tranquilla | Buenos Aires, Argentina ACTIVITY 224 Casa Kolacho Comuna 13 | Medellin, Colombia 232 AfroReggae Cultural Center | Rio de Janeiro, Brazil 240 Alto Per. | Lima, Peru 248 El Calvario Puertas Abiertas | Caracas, Venezuela

From Revolution to Chaos in Haiti (1804-2019) May 29 2020 Haiti is a failing state. The country is still unable to provide basic needs such as employment, food, housing, healthcare and education to a majority of its inhabitants in over two centuries after its revolution and Independence of 1804. Relatively incompetent, both the nation's government and its opposition ignore moral politics, and instead, focus on corruption and fighting each other. Though free from French rule, the country remains tied to its slave past and violent history. It seems like a socioeconomic and urban consensus cannot be achieved in order to carry out sustainable solutions for the people. This book, *From Revolution to Chaos in Haiti, 1804-2019: Urban Problems and Redevelopment Strategies*, is an attempt to analyze this situation from a historical perspective. First, the Haitian Revolution of 1804 is displayed to show the violent and bloody struggles of outstanding leaders and warriors against colonial powers for the making of a great political and independent nation. Second, Haiti's decline is analyzed starting from the assassination of its first leader, Jean-Jacques Dessalines, in 1806 to the country's bottom rank in the global stratification during the 2010's along with the impact of the catastrophic 2010 earthquake. The main factors noted within this decline are linguistic, agricultural, urban and (HIV, AIDS, TB) healthcare issues and undercapitalization along with ideological confusions (capitalism, neoliberalism, socialism, social democracy) and political instability.

Oilcrops complex Feb 18 2022 The purpose of this publication is to provide policy makers and market experts with an overview of government policies and industry measures concerning global and national markets for oilcrops and derived products. By helping public sector organizations and other stakeholders to monitor and analyze the impact of specific commodity policies on trade, food security and national agri-food systems, countries will be in a position to make informed, evidence-based policy decisions and to take advantage of global, regional and domestic trade and market opportunities. The 2017 compendium offers an overview of salient government policies and related private sector measures concerning global and national markets for oilcrops and derived products. Its purpose is to facilitate the work of policy makers, market experts,

analysts and other interested stakeholders by providing a short, concise overview of policy developments relevant to the sector. Detailed news items are presented in tabular form (in English only), preceded by a brief discussion of the key policy trends observed in the year under review. Blurb For OCCP only?

Translation and Localization Dec 16 2021 Detailed yet accessible, Translation and Localization brings together the research and insights of veteran practicing translators to offer comprehensive guidance for technical communicators. The volume begins with the fundamentals of translation before leading readers through the process of preparing technical documents for translation. It then presents the broader area of localization, again beginning with its key competencies. Concluding chapters examine the state of the field as computers take on more translation and localization work. Featuring real-life scenarios and a broad range of experienced voices, this is an invaluable resource for technical and professional communicators looking to expand into international markets. This book will be of interest to students of ethnic conflict, Asian politics, and security studies.

About Fish / Sobre los peces Nov 15 2021 This award-winning beginner's guide to the natural world of fish from the creators of the About... series was named an "NSTA Recommends" book. Noted educator and author Cathryn Sill uses simple, easy-to-understand language to teach children the basic characteristics of what fish are, how they swim, breathe, and reproduce, and explains the different ways they protect themselves from predators. With beautifully detailed, realistic paintings, noted wildlife illustrator John Sill introduces readers to the diversity of the fish population, from an Arctic char to a porcupine fish. An afterword provides more details, inspiring further learning. This book is ideal for early childhood and elementary units in science, environment, and marine life.

Saluut aan Catalonië Sep 01 2020 In 1936 ging George Orwell naar Spanje om te berichten over de burgeroorlog. Maar in plaats daarvan sloot hij zich aan bij het republikeinse rebellenleger om te vechten tegen de fascistten. In Saluut aan Catalonië doet hij met nietsontziende eerlijkheid verslag van de oorlog en van zijn ervaringen. Op indringende wijze brengt hij die chaotische episode tot leven: de revolutionaire euforie van Barcelona, de moed van gewone Spaanse mannen en vrouwen die naast hem vochten, de verschrikkingen en de verwarring aan het front, de bijna

fatale verwonding die hij opliep door een kogel, en het doortrapte verraad van de zogenaamd geallieerde naties. Deze uitgave is voorzien van een inleidende tekst van Geert Mak, ontleend aan zijn vermaarde boek In Europa.

Color Atlas of Genetics Mar 27 2020 Ever since the International Human Genome Project achieved its extraordinary goal of sequencing and mapping the entire human genome, represented by approximately 3 billion base pairs, with its far-reaching implications for understanding the causes of human genetic disorders and their diagnosis, progress in the field has not slowed down. In the fifth edition of the bestselling Color Atlas of Genetics, readers will be rewarded with a complete and current overview of the field, with an emphasis on the interface between fundamental principles and practical applications in medicine and the role of signaling pathways in causing diseases. Using the acclaimed Flexibook format designed for easy visual learning and retention, the atlas is invaluable for students, clinicians, and scientists interested in staying up to date in this fast-evolving area. New fully illustrated topics in the revised fifth edition of the atlas include: An overview of disorders resulting from structural changes of the genome (genomic disorders) Abnormal imprinting patterns Examples of impaired signal pathways (laminopathies, fibrillinopathies, cohesinopathies, and others) The CRISPR-Cas system Genetic features of the aging processes Disorders due to rearrangements of chromatin in the cell nucleus, and others With almost 200 stunning color plates explained by concise texts on the opposite pages, including tables presenting useful data, a glossary of terms, key references, and online resources, the atlas presents clear and accessible concepts. It is an excellent refresher for investigators in any field of medicine or biology.
