[Stop Teaching Our Kids to Kill](#) Oct 02 2022 There is perhaps no bigger or more important issue in America at present than youth violence. Columbine, Sandy Hook, Aurora: We know them all too well, and for all the wrong reasons: kids, some as young as eleven years old, taking up arms and, with deadly, frightening accuracy, murdering anyone in their paths. What is going on? According to the authors of [Stop Teaching Our Kids to Kill](#), there is blame to be laid right at the feet of the makers of violent video games (called "murder trainers" by one expert), the TV networks, and the Hollywood movie studios--the people responsible for the fact that children witness literally thousands of violent images a day. Authors Lt. Col. Dave Grossman and Gloria DeGaetano offer incontrovertible evidence, much of it based on recent major scientific studies and empirical research, that movies, TV, and video games are not just conditioning children to be violent--and unaware of the consequences of that violence--but are teaching the very mechanics of killing. Their book is a much-needed call to action for every parent, teacher, and citizen to help our children and stop the wave of killing and violence gripping America's youth. And, most important, it is a blueprint for us all on how that can be achieved. In Paducah, Kentucky, Michael Carneal, a fourteen-year-old boy who stole a gun from a neighbor's house, brought it to school and fired eight shots at a student prayer group as they were breaking up. Prior to this event, he had never shot a real gun before. Of the eight shots he fired, he had eight hits on eight

different kids. Five were head shots, the other three upper torso. The result was three dead, one paralyzed for life. The FBI says that the average, experienced, qualified law enforcement officer, in the average shootout, at an average range of seven yards, hits with less than one bullet in five. How does a child acquire such killing ability? What would lead him to go out and commit such a horrific act?

Many Children Left Behind Jul 31 2022 Signed into law in 2002, the federal No Child Left Behind Act (NCLB) promised to revolutionize American public education. Originally supported by a bipartisan coalition, it purports to improve public schools by enforcing a system of standards and accountability through high-stakes testing. Many people supported it originally, despite doubts, because of its promise especially to improve the way schools serve poor children. By making federal funding contingent on accepting a system of tests and sanctions, it is radically affecting the life of schools around the country. But, argue the authors of this citizen's guide to the most important political issue in education, far from improving public schools and increasing the ability of the system to serve poor and minority children, the law is doing exactly the opposite. Here some of our most prominent, respected voices in education—including school innovator Deborah Meier, education activist Alfie Kohn, and founder of the Coalition of Essential Schools Theodore R.Sizer—come together to show us how, point by point, NCLB undermines the things it claims to improve: \* How NCLB punishes rather than helps poor and minority kids and their schools \* How NCLB helps further an agenda of privatization and an attack on public schools \* How the focus on testing and test preparation dumbs down classrooms \* And they put forward a richly articulated vision of alternatives. Educators and parents around the country are feeling the harshly counterproductive effects of NCLB. This book is an essential guide to understanding what's wrong and where we should go from here.

[How to Raise Decent and Morally Sound Kids](#) Nov 10 2020 There is no doubt that a child who is not properly raised by his parents will bring shame to his home. Raising well behaved and cultured kids in today's world is becoming increasingly difficult. This is why it is now very hard to find a sixteen years old virgin. Despite the fact that parents today are not measuring up to the standard with which parents of the past generation raised their kids, the biggest problem of raising well cultured kids today is hinged on how we deal with the external influences of the society that negate our effort of inculcating discipline and good morals into our children. These external factors include, peer pressure, drugs and alcohol, negative band-wagon influence promoted by TV and social media. It is now a normal thing for young girls to dress almost naked while walking on the street. It's also now very common to see 15, 16 years old girls dropping out of school as a result of unwanted pregnancy. Drug abuse among teenagers is fast becoming the order of the day. Well, this is the world we and our kids now have to live in. But I have got some cheering news for you... In this book I have carefully outlined some very effective parenting techniques that will help you raise your kids the right way. This book will teach you how you can inculcate discipline and good morals into your kids, which will in turn make them grow up to become well cultured and responsible adults. Get this book, apply the parenting principles it contains and trust me, your kids will stand out with an excellent character anywhere they go...

How to Be Present in an Absent World May 05 2020 Experience the fullness of life that Jesus promises by learning how to engage with the present--even in the increasing busyness of work and family life. Do you ever wonder how long can you keep: grinding out eighty-hour work weeks? putting your marriage on the backburner? treating your employees like cogs in a machine? pushing your life aside before you realize your time is all up? At the heart of this collaborative project is the belief that the pain we experience is the result of absence--living disconnected from our authentic selves and lacking deep, meaningful relationships with others and with God. Daniel Montgomery, the founding pastor of Sojourn Community Church; Kenny Silva, a PhD candidate at Trinity International University; and Eboni Webb, who holds a doctorate of Clinical Psychology, pooled their efforts and expertise to focus on the problem of modern absence and the pain it causes us and those around us. This book is a guide for how to cultivate a self-awareness that empowers you to take ownership and engage in every area of influence. It's arranged into five sections, each focusing on one of the major areas of our lives where many of us struggle with absence: Time Place Body Others Story How to Be Present in an Absent World provides biblical, practical ways to handle the daily pressures of life without denying or escaping the present. Its goal is to help you rediscover what it means to show up for your own life. With interludes that offer a deep dive into the neurobiology of presence as well as principles and exercises that Dr. Webb employs in her clinical practice, Montgomery and his coauthors will equip you with the kind of self-understanding that allows you to realize God's design for human flourishing--whether in your church, in your job, or in your family.

Stop Teaching Our Kids To Kill, Revised and Updated Edition Sep 01 2022 Completely revised and updated, a much-needed call to action for every parent, teacher, and citizen to help our children and stop the wave of killing and violence gripping America's youth Newtown, Aurora, Virginia Tech, Columbine. There is no bigger or more important issue in America than youth violence. Kids, some as young as ten years old, take up arms with the intention to murder. Why is this happening? Lt. Col. Dave

Grossman and Gloria DeGaetano believe the root cause is the steady diet of violent entertainment kids see on TV, in movies, and in the video games they play—witnessing hundreds of violent images a day. Offering incontrovertible evidence based on recent scientific studies and research, they posit that this media is not just conditioning children to be violent and see killing as acceptable but teaching them the mechanics of killing as well. *Stop Teaching Our Kids to Kill* supplies the statistics, interprets the copious research that exists on the subject, and suggests the many ways to make a difference in your home, at school, in your community, in the courts, and in the larger world. Op aarde schitteren we even Nov 03 2022 De debuutroman van de dichter Ocean Vuong is een schokkend familieportret en een indringend relaas van een eerste liefde, waarin de bezwerende kracht van taal en verhalen wordt aangewend als middel om te overleven en kloven te overbruggen. *Op aarde schitteren we even* is een brief van een zoon aan zijn moeder die niet kan lezen. De schrijver van de brief, de achtentwintigjarige Hondje, legt een familiegeschiedenis bloot die voor zijn geboorte begon - een geschiedenis waarvan het brandpunt in Vietnam ligt. Daarnaast verschaft hij toegang tot delen van zijn leven waar zijn moeder nooit van heeft geweten, en doet hij een onvergetelijke onthulling. De roman is behalve een getuigenis van de problematische maar onmiskenbare liefde tussen een alleenstaande moeder en haar zoon, ook een genadeloos eerlijk onderzoek naar ras, klasse en mannelijkheid. *Op aarde schitteren we even* stelt vragen die centraal staan in het Amerika van nu, dat ondergedompeld is in verslaving, geweld en trauma. Het is een roman vol mededogen en tederheid over de kracht van je eigen verhaal vertellen en over de vernietigende stilte van niet gehoord worden. Met verbluffende urgentie en elegantie schrijft Ocean Vuong over mensen die klem zitten tussen onverenigbare werelden, en onderzoekt hij hoe we elkaar kunnen genezen en redden zonder te verloochenen wie we zijn. De vraag hoe we moeten overleven, en hoe we daar een soort vreugde aan kunnen ontnemen, is de drijvende kracht van de belangrijkste debuutroman sinds jaren.

*Who Pays for the Kids?* Jun 17 2021 A fresh look at how women largely carry the costs of caring for themselves, the children and other dependents, with an analysis of individual choices within interlocking structures of constraint based on gender, sex, age, nation, race and class.

*Who Cares for our Children?* Dec 24 2021 Valerie Polakow spent a year traveling around the country listening to low-income women from diverse backgrounds tell their stories of struggle, resilience, distress, and occasional success as they encountered ongoing child care crises. The resulting work is both a compelling account of the lived realities of the child care crisis, and an incisive critique of public

policy that points to the United States as an outlier in the international community. Drawing on historical and international perspectives, Polakow creates a groundbreaking analysis of child care as a human right, persuasively arguing for a universal child care system. "Who Cares for Our Children? is one of the most disturbing books I have read in a long time. It should have a major impact on debates over poverty and social policy." —From the Foreword by Barbara Ehrenreich, author of Nickel and Dimed "In this beautifully written and provocative volume, Polakow deftly steps aside and lets real mothers, struggling against the odds to keep their families safe and sound, speak for themselves about what they need. This book delivers a timely message: Child care should be viewed as a human right." —Martha F. Davis, Northeastern University School of Law "A collection of moving and often chilling personal narratives. . . . Who Cares for Our Children? is a powerful and well-documented analysis of the worlds of low-income families." —Beth Blue Swadener, Arizona State University "Thoroughly researched and grounded in a heartfelt sympathy for the struggles of families . . . that face such painful choices and dilemmas in meeting the needs of their children." —James Garbarino, Loyola University Chicago

How We Make Our Kids Angry May 29 2022 I remember one of the first times our younger daughter Amber vented her anger at me for something I did. In reality, it was something I didn't do that made her mad. She had asked me to help her with a paper she was writing for a middle school class. The paper required a lot of research, and Amber didn't know how to go about doing the research. "There's nothing to it," I assured her flippantly. Then instead of showing her what she needed to do, I simply told her to get started, explaining that she would figure out how to do the research as she went along. She let out an exasperated sigh. "But Dad, I don't know how to--" "Amber, just get started," I insisted with authority, "and you'll figure it out." Then I left the room. (from the introduction) When the author understood his mistake, he was able to go and talk with his daughter. As she vented, he began to understand what a capacity parents have to make their kids angry, and how he could change his approach to communicating with his children to improve their relationship. In the years since Roger Cross has been studying the things parents do that make kids angry, such as: playing favorites having loose or confusing boundaries expecting kids to fill adult roles and more Drawing on his ministry of Youth for Christ along with a survey of one hundred students of varied ages and backgrounds, Roger Cross has created a practical, helpful book for parents who want to understand why their kids are so angry and what they need to do to change.

365 Ways to Unplug Your Kids (for Awhile Anyway) Dec 12 2020 365 Ways to Have Fun - No Electricity Required Childhood Play is Serious Business! Have you noticed that kids today don't know how to play? This book can help change that. Childhood play is serious business. Many studies have

shown that childhood play assists in developing a child's: imagination, social skills, self esteem, ability to learn and physical fitness. A California Department of Education study indicates that a child's regular participation in outdoor activity produces a "measured mastery of science concepts by 27%". We fill our "Storehouse of Interests" when we are young adding only a few to the list as adults. If there is any truth in this statement, we then have the heavy responsibility of assuring that our children and grandchildren fill their "Storehouses" with as many interests as possible. That's why this book has been written. It is when we are young that we first experience the excitement of adventure, gain the confidence to try new things and, develop our zest for life. It is through play that our children not only have fun, but more importantly, discover interests and develop skills that will last their lifetime. How to use this book This book is designed to be used as a source of ideas and a listing of choices of things to do instead of watching TV or playing computer and video games. We have segregated activities into twenty two categories for convenience and ease of use.

Including a chapter on how to navigate the inevitable difficulties that arise during the various ages and stages of development, this ground-breaking book simplifies an often mystifying and complex subject, empowering parents to raise truly confident and joyful kids despite stressful and turbulent times.

**Spare the Kids Aug 20 2021** A challenge to the cultural tradition of corporal punishment in Black homes and its connections to racial violence in America Why do so many African Americans have such a special attachment to whupping children? Studies show that nearly 80 percent of black parents see spanking, popping, pinching, and beating as reasonable, effective ways to teach respect and to protect black children from the streets, incarceration, encounters with racism, or worse. However, the consequences of this widely accepted approach to child-rearing are far-reaching and seldom discussed. Dr. Stacey Patton's extensive research suggests that corporal punishment is a crucial factor in explaining why black folks are subject to disproportionately higher rates of school suspensions and expulsions, criminal prosecutions, improper mental health diagnoses, child abuse cases, and foster care placements, which too often funnel abused and traumatized children into the prison system. Weaving together race, religion, history, popular culture, science, policing, psychology, and personal

testimonies, Dr. Patton connects what happens at home to what happens in the streets in a way that is thought-provoking, unforgettable, and deeply sobering. Spare the Kids is not just a book. It is part of a growing national movement to provide positive, nonviolent discipline practices to those rearing, teaching, and caring for children of color.
