Migrants, Borders and the European Question May 24 2022 This book examines how the Calais Jungle posed and addressed the

European Question. The issue of who and what counts as European was articulated through this makeshift camp. The book argues that the Jungle acquired meaning as a localised struggle to define territory, borders, rights and refugees in Europe. Henri Lefebvre's spatial triad is used as a framing device for analysis. Discourses of tropicality are shown to produce the Jungle in terms of a postcolonial space of exception. This representational space fused bodies and environment in racialised ways. Attention is then drawn to assemblages that gave rise to political subjectivity, which partially elided a Eurocentric prism of rights. Here, the book explores how a 'right to the jungle' was generated via relations between refugees, aid workers and material objects—constituting the Jungle as a space of representation. Finally, intimate life in, and beyond, the Jungle is examined as a spatial practice that contests the EU border regime.

The Jungle Book Aug 15 2021 The Jungle Book (1894) is a collection of stories by English author Rudyard Kipling. The stories were first published in magazines in 1893-94. The original publications contain illustrations, some by Rudyard's father, John Lockwood Kipling. Kipling was born in India and spent the first six years of his childhood there. After about ten years in England, he went back to India and worked there for about six-and-a-half years. These stories were written when Kipling lived in Vermont. There is evidence that it was written for his daughter Josephine, who died in 1899 aged six, after a rare first edition of the book with a poignant handwritten note by the author to his young daughter was discovered at the National Trust's Wimpole Hall in Cambridgeshire in 2010. The tales in the book (and also those in The Second Jungle Book which followed in 1895, and which includes

five further stories about Mowgli) are fables, using animals in an anthropomorphic manner to give moral lessons. The verses of The Law of the Jungle, for example, lay down rules for the safety of individuals, families and communities. Kipling put in them nearly everything he knew or "heard or dreamed about the Indian jungle." Other readers have interpreted the work as allegories of the politics and society of the time. The best-known of them are the three stories revolving around the adventures of an abandoned "man cub" Mowgli who is raised by wolves in the Indian jungle. The most famous of the other four stories are probably "Rikki-Tikki-Tavi", the story of a heroic mongoose, and "Toomai of the Elephants", the tale of a young elephant-handler. As with much of Kipling's work, each of the stories is preceded by a piece of verse, and succeeded by another. The Jungle Book, because of its moral tone, came to be used as a motivational book by the Cub Scouts, a junior element of the Scouting movement. This use of the book's universe was approved by Kipling after a direct petition of Robert Baden-Powell, founder of the Scouting movement, who had originally asked for the author's permission for the use of the Memory Game from Kim in his scheme to develop the morale and fitness of working-class youths in cities. Akela, the head wolf in The Jungle Book, has become a senior figure in the movement, the name being traditionally adopted by the leader of each Cub Scout pack.

The Jungle School Apr 23 2022 A People in Crisis . . . A Young Woman's Adventure . . . A School for Life The Orang Rimba (People of the Forest) are nomadic tribes living in the rainforests of Sumatra, Indonesia as hunter-gatherers. Today, the outside world has arrived at their doorstep. From illegal loggers chain-sawing the jungle to government-sponsored transmigrants working in palm oil plantations, the outsiders are encroaching upon the rainforest. While they have the skills needed to preserve their jungle, the Orang Rimba are ill prepared to deal with land contracts or sale of rainforest products. What can be done to help them? Butet Manurung shares the journal she kept during her first year in the jungle. She tells of her adventures with stinging bees, prowling bears, and motorbikes. Most touchingly, she describes how her relationship with the Orang Rimba develops as she transforms from an outsider to a trusted teacher within the community. Her trials and errors are familiar to anyone who has ever been a teacher, even though her students often wear loincloths and trap animals for lunch. Will learning to read and write be enough to help the Orang Rimba save their rainforest? Butet tells the story of her journey from anthropologist to educator to activist. She explains how and why she founded SOKOLA to bring literacy to indigenous people in areas too remote to access education. The work of this foundation and its adventurous volunteers is an excellent example of how a small number of individuals can effect change. The Jungle School is now a film! Directed by Riri Riza. Praise for The Jungle School "The traditional wisdom of the indigenous people of Indonesia is a truth that we must preserve. At the same time, the dilemma between introducing modernity, development and education while protecting their traditional way of life is another truth. I greatly appreciate the contribution and dedication of people like Butet Manurung who

provide true insights into the Orang Rimba. The Jungle School speaks volumes from actual experience, recorded not only in an anthropological way, but also in a very human and personal way. This is a book that not only makes us realize that traditional wisdom and jungles need to be preserved, but also warms the heart." - Mari Pangestu, Indonesia's Minister of Tourism "The Jungle School puts a human face on the results of logging and deforestation practices that directly threaten the existence of the Orang Rimba. Although the rights of the often-forgotten Rimba people are protected by our laws, their aspirations are sometimes ignored in the management of rainforests and their resources. Education for the Rimba is truly a gift for life. Butet's story will change the hearts and minds of those who think otherwise." - Agus Purnomo, Special Staff to the President of the Republic of Indonesia for Climate Change "The Jungle School comes at a critical moment in the development of the present civilization. It combats all the theoretical complexity of educational developments to smooth the process from literate society to knowledge society; welfare society to cultured and civilized society. Butet Manurung shows that the impossible is possible by touching the hearts and minds of the Orang Rimba, by reaching the unreachable soul of an indigenous community, by helping us to understand what it means to be human. She inspires readers and takes them on a journey of educational adventure that highlights best practices, which can also be applied in any metropolitan jungle that needs intellectual perseverance. Butet shows her intellectual courage, integrity and her sacrifices to become a hero of education. She exercises the intellectual virtues that we all need today to have a healthy mind-set in the pursuit of human rights and dignity. "It is in the minds of men that the defense of peace must be constructed." (UNESCO Constitution)" - Arief Rachman, Professor, Begin Again Jul 02 2020 Are you struggling with sadness, pain, or disappointment? Could you use a new beginning or a redo? If so, take heart. Jungle Justice Jan 08 2021 Where do we find justice and freedom in our world today? We believe that justice and freedom can be found on earth through the sensitive leadership of our leaders. Next to God, our leaders are given the responsibilities to safeguard our lives and properties. With that in mind, this book, Jungle Justice, presents the dramatic account of a certain insensitive leadership. The author created an imaginary state called Dubli Kingdom that symbolizes some third world nations. A self-styled leader called Blamah maliciously got into power with the aim of bringing justice and freedom to his people. Instead of delivering the goods he promised, Blamah and his admirers terrorized the sub-region for decades. He abused the dignity of humanity, and executed many former leaders, citizens and destroyed the nation beyond a century of its existence. The land became the biggest undeveloped global village. He isolated himself from other world leaders. In fact, he considered anyone who advised him as his number one enemy. Many people went into exile in the search of freedom and a better life. While Blamah was carrying on his genocidal activities, and the widespread crime of ethnic cleansing against nations in the sub-region, a liberator named Leila became the redeeming leader. He was the most successful and wisest leader who ever ruled Dubli Kingdom. He stabilized and minimized corruption, and eased crimes in the kingdom. He reconciled the nation with other nations. Leila called his form of government, the assembly democracy. With this form of government, decision-making was in the hands of every citizen, and any approved decision was presented to the national government for implementation. Dubli Kingdom rapidly developed to meet international standard through the many projects undertaken by the leading government, investors and entrepreneurs. No one could easily notice that the land was once devastated, and jungle justice was

erased. A.M. Trye uses parables and proverbs as metaphors to develop the plot and explain the theme.

Soldier F: Guerrillas in the Jungle Jan 20 2022 In 1948 Communist terrorists were waging a bloody war against estates and rubber-plantation owners in Malaya. Chased into the interior by British Army units, the guerrillas soon became experts at survival and evasion, emerging from the jungle only to launch increasingly ferocious attacks. In 1952, on the recommendation of Lieutenant-Colonel 'Mad' Mike Calvert, veteran of the Chindit campaigns in Burma, 22 SAS was formed as a special counter-insurgency force. Three years later the re-formed SAS began their jungle patrols. They learned how to survive for weeks at a time in hostile terrain, often waist-deep in water, and under attack from wild animals, leeches and poisonous insects. That extraordinary campaign climaxed in a nightmarish two weeks in the Telok Anson swamp tracking the troops of the notorious 'Baby Killer', Ah Hoi, while the regiment's dreadful and unforgettable experiences in the Malayan jungle laid the foundations for the SAS's legendary survival skills. Soldier F SAS: Guerrillas in the Jungle is the sixth in a series of novels based on this extraordinary regiment a thrilling 'factoid' adventure about the most daring soldiers in military history: the SAS!
