The first thing you want to do... is looking at your cost. I know of so many successful businesses that ended up falling apart due to cash flow issues. Running a business involves a lot of expenses including payments, rent, paying staff, and more. Now, if you're someone who doesn't own a business, you're probably not thinking... "This isn't relevant to me". Think again. It is. A lot of people who work a 9-5 job get into trouble not because they're not earning enough but rather, due to their lifestyle. Step back and take a look at your spending. Where is your money going? If you're always on edge and running out of cash, then something has to change. What are the things you can cut out immediately? Whether it's your business or personal expenses, keep track of your costs and spend wisely. Because in the end, you have control over that and it's far easier than trying to increase your income. The Science of Getting Rich Oct 09 2020 It is the desire of God that you should get rich. He wants you to get rich. He can express Himself better through you if you have plenty of things to use in giving Him expression. He can bless you if you have unlimited command of the means of life. The universe desires you to have everything you want. Nature is friendly to your plans. Everything is naturally for you. Make up your mind that this is true. God wants you to get rich. You should make the most of yourself, for yourself, and for others. And you can help others more by making the most of yourself than in any other way. You can make the most of yourself only by getting rich, so it is right and praiseworthy that you should give your first and best thought to the work of acquiring wealth. The ownership of money and property is the result of doing things in a certain way. Those who do things in this certain way, whether on purpose or accident, get rich. Those who do not do things in this certain way, no matter how hard they work or how able they are, never get rich. It is a natural law that like causes always produce like effects. Therefore, any man or woman who learns to do things in this certain way will infallibly get rich. Rhonda Byrne, in her book, *The Secret*, tells how a 100-year-old book entered her life and changed it forever. Here is that book. Written in 1910, *The Science of Getting Rich* inspired Byrne to create her bestselling CD, and subsequently, to write her book. She has said that it gave me a glimpse of *The Secret*. It was

flame inside of my heart. And with every day since, it's just become a raging fire of wanting to share all of this world. "There is a science of getting rich. It is an exact science, like algebra or arithmetic. There are certain laws govern the process of acquiring riches. Once a person learns and obeys these laws, he will get rich with mathematical certainty." --Wallace D. Wattles, *The Science of Getting Rich*) + + + ABOUT THE AUTHOR -- Wallace Delois Wattles was an American author. A New Thought writer, he remains personally somewhat obscure, but his writing has been widely quoted and remains in print in the New Thought and self-help movements. Wattles' best known work is a book called *The Science of Getting Rich* in which he explained how to become wealthy. Rhonda Byrne told a New York Times interviewer that her inspiration for creating the 2006 hit film *The Secret* and the subsequent book by the same name was her exposure to Wattles's *The Science of Getting Rich*. Byrne's daughter, Hayley, had given her mother a copy of Wattles book to help her recover from her breakdown. The film itself also references, by re-popularizing the term Law of Attraction, a 1908 book by another New Thought author, William Walker Atkinson, titled *Thought Vibration or the Law of Attraction in the Thought World*.

May 19 2021 The Science of Getting Rich is a book written by the New Thought Movement writer Wallace D. Wattles and published in 1910. The book is still in print. It was a major inspiration for Rhonda Byrne's bestselling book and film The Secret (2006). According to USA Today, the text is "divided into 17 short, straight-to-the-point chapters that explain how to overcome mental barriers, and how creation, not competition, is the hidden key to wealth attraction." The Science of Getting Rich preceded similar financial success books such as The Master Key System by Charles F. Haanel (1912) and Think and Grow Rich by Napoleon Hill (1937). The Science of Getting Rich was credited by Rhonda Byrne as one of the inspirations for her popular 2006 film and 2007 book The Secret. As Byrne explained it on the web site of Oprah Winfrey, "Something inside of me had me turn the pages one by one, and I remember my tears hitting the pages as I was reading it. It gave me a glimpse of The Secret. It was like a flame lighting my heart. And with every day since, it's just become a raging fire of wanting to share all of this with the world."

Feb 27 2019 How to build wealth with passion and purpose The power to create great wealth is already within you. But monetizing that raw energy doesn't happen by itself. As Christopher Howard shows, building great wealth is a dual process. It begins by identifying your passion—the things you truly and deeply care about, whatever they may be. Next, passion needs to be endowed with purpose: a clearly defined vision of the future you want to create. Once this happens, money is simply the natural reward. When you bring the value of passion and purpose to the marketplace, financial prosperity is the instant result. It's like awakening to a new reality—not just for yourself, but for everyone who shares in your success. And make no mistake: sharing is a key element in the success of Bill Gates, Oprah Winfrey, Richard Branson, and the other billionaire entrepreneurs Chris introduces in these pages. Instant Wealth

up Rich! proves that ultimate success is by no means a matter of selling out principles in order to become rich. Contrary, it's becoming rich in order to bring that riches to the world. As a true entrepreneur himself, Christopher Howard has put these lessons to work in the creation of his own fast-growing international business. What's worked for him—and for so many other hugely successful entrepreneurs—can work for you too. All it takes is passion, purpose, and waking up to instant wealth.

Secrets of the Millionaire Mind **Nov 31 2019** Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are defined by a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, or luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that determines our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money. If somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. Secrets of the Millionaire Mind is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!
