Spreading My Wings Nov 22 2021 This is a book composed of poems about the experiences of my life. Instead of my emotions overwhelming me and destroying me, I found that through poetry I was able to release them onto paper. Those emotions can now be set free, allowing me to have my feelings seen through poetry, instead of my emotions floating in the air among the clouds, leaving me to bear internal suffering. This book of poems is how I have been able to free myself from the burden of my emotions. My only hope is that someone may be able to connect to some of my poetry and feel a little freer to express their own experiences through poetry as well.

[To Touch the White Unfolded Wings of Wonder](#) Oct 29 2019 It is not years that measure and mark our lives, but moments; the individual events that mold our spirits and shape our destinies. In the course of our lives, like the branches of a broad tree, the situations we climb leave their signature on our hearts not only in that each changes us a little, but that each leaves us a little more sure of ourselves. I believe poems are short stories in the purest sense. These poems are the stand-out moments, the many stories of my life.

By making ourselves understood, we can help others learn from our perspective & ultimately we both grow into a relationship as reader and writer. This book is about giving wings to words, to let them soar and interact with so many other people. Join us on this journey, and hopefully find yourself inspired by the great poetry in this book."--

[Twentieth-Century Metapoetry and the Lyric Tradition](#) Dec 12 2020 Twentieth-Century Metapoetry and the Lyric Tradition reveals the unique value of metapoems for exploring twentieth-century poetry. By placing these texts into a hitherto barely investigated literary-historical perspective, it demonstrates that modern metapoetry is steeped in the lyric tradition to a much greater extent than previously acknowledged. Since these literary continuities that cut across epochal boundaries can be traced across all major poetic movements, they challenge established accounts of the history of twentieth-century poetry that postulate a radical break with the (immediate) past. Moreover, the finding that metapoems perpetuate traditional forms and topoi distinguishes metapoetry historically and systematically from metafiction and metadrama. After highlighting the most important differences as regards to the function of meta-reference in poetry on the one side, and in fiction and drama on the other, the book concludes with a discussion of how to account for these generic differences theoretically. With its "extraordinarily subtle and perceptive" (Ronald Bush, St. John's College, Oxford) interpretive readings of over one hundred metapoems by canonical anglophone authors, it offers the first representative selection of twentieth-century poems about poetry in English.

Reading Poetry Jan 25 2022 Reading Poetry offers a comprehensive and accessible guide to the art of reading poetry. Discussing more than 200 poems by more than 100 writers, ranging from ancient Greece and China to the twenty-first century, the book introduces readers to the skills and the critical and theoretical awareness that enable them to read poetry with enjoyment and insight. This third edition has been significantly updated in response to current developments in poetry and poetic criticism, and includes many new examples and exercises, new chapters on 'world poetry' and 'eco-poetry', and a greater emphasis throughout on American poetry, including the impact traditional Chinese poetry has had on modern American poetry. The seventeen carefully staged chapters constitute a complete apprenticeship in reading poetry, leading readers from specific features of form and figurative language to larger concerns with genre, intertextuality, Caribbean poetry, world poetry, and the role poetry can play in response to the ecological crisis. The workshop exercises at the end of each chapter, together with an extensive glossary of poetic and critical terms, and the number and range of poems analysed and discussed - 122 of which are quoted in full - make Reading Poetry suitable for individual study or as a comprehensive, self-contained textbook for university and college classes.

Golden Dreams on Copper Wings Jan 01 2020 Have you ever read a poem and wondered what transpired in the life of the poet to cause him to write such beautiful, stirring or poignant words? Well, Jonathan Hopkins addresses this in his book Golden Dreams on Copper Wings: Lifes Flight Through Poetry. This first-time author mixes his own unique brand of humor with his

lives experiences, love won, lost and unrequited, and his love of Jesus Christ and writing, to create his distinct brand of poetry. His poetry has been described as fanatically flowing, the definition of poetry, and neurotic word play. Golden Dreams is engaging, easy-reading and an often humorous trek through the life of a poet, with the poet himself (and his poems) guiding the way. Mercurial Journeys Sep 28 2019 "After the tragic death of her daughter Hana and the onset of MS later, the author's art took on an ethereal quality, swirling with light and emotions. Her poems, too, are infused with the energy and movement that is lost to her. They dance and soar to great heights, plummet into the abyss of despair, then, like her indomitable spirit, rise again to meet the new day." -Joan Matchett, editor "Stania Slahor like the novelist Joseph Conrad, enjoys writing in her acquired tongue. Perhaps, their foreign beginnings give such people fresh look at English, which we who have spoken it from childhood can never attain." -Dr. Leon Karel, Charlotte Herald News Both haunting and beautiful, the poems in this collection reflect the life and family of eighty-year-old author Stania Slahor. Using her colorful family and her personal experiences, Slahor writes with a unique voice about a variety of topics-from tributes to her grandparents and parents to writings inspired from tropical experiences in Mexico's Yucatan. In the "The Mockingbird," readers can almost hear the mockingbird's cry through Slahor's descriptive language: ". its burlesque laugh / penetrates the majestic stillness / of the wood's green canopy / reaching to the sun . the vexing mockingbird / the incorrigible teaser / and tormented clown / the insatiable listener / struggles for his own genuine song / to overmaster his self-imposed mockery / a perfect melodic tune. " Slahor's writings prove that you don't need to be an angel to fly.

Poetry as Survival Aug 20 2021 Intended for general readers and for students and scholars of poetry, Poetry as Survival is a complex and lucid analysis of the powerful role poetry can play in confronting, surviving, and transcending pain and suffering. Gregory Orr draws from a generous array of sources. He weaves discussions of work by Keats, Dickinson, and Whitman with quotes from three-thousand-year-old Egyptian poems, Inuit songs, and Japanese love poems to show that writing personal lyric has helped poets throughout history to process emotional and experiential turmoil, from individual stress to collective grief. More specifically, he considers how the acts of writing, reading, and listening to lyric bring ordering powers to the chaos that surrounds us. Moving into more contemporary work, Orr looks at the poetry of Sylvia Plath, Stanley Kunitz, and Theodore Roethke, poets who relied on their own work to get through painful psychological experiences. As a poet who has experienced considerable trauma--especially as a child--Orr refers to the damaging experiences of his past and to the role poetry played in his ability to recover and survive. His personal narrative makes all the more poignant and vivid Orr's claims for lyric poetry's power as a tool for healing. Poetry as Survival is a memorable and inspiring introduction to lyric poetry's capacity to help us find safety and comfort in a threatening world.

Wings Oct 10 2020 Poetry. Jewish Studies. Middle Eastern Studies. Religion & Spirituality. In WINGS, Israeli poet Amir Or's thirteenth book of poetry, transcendence is not a flight from the concrete intimacy of history and experience, but an opening within it, an interrogation of its baffling sweep, its beauty and its violence, that reveals, in the heart of unity, a profound multiplicity, the community of love, and the endless labor of birth. In these poems, we hear the sky speak with a music that seems to be wrought of hard roads, and vice versa: we see heaven and earth as shimmering mirages of each other, and the pilgrim's journey beyond time, towards liberation, as the secret heart of both. This bilingual edition follows WINGS with an encore, the brief Basho-like sequence "Travelog," both translated by poet Seth Michelson. It also includes explanatory notes and an insightful critical afterword by the translator, and an interview with Amir Or by Nevena Milojevi?.

Decomposing Figures Sep 08 2020 Chase's readings show that, far from implying a privileged status, the work's self-reflexive structure entails its opacity, its inability to read itself, and the necessity of its decomposition.

Poetry of the Romantic Period Jan 13 2021 First published in 1980. This title provides a critical and historical account of poetry written between 1780 and 1835. The author has been especially concerned to place the great poems and poets of the age in the context of the conventions and traditions in which they wrote, offering new perspectives on familiar works. Poems still famous are examined often in relation to works of a similar kind fashionable at the time but now neglected, and these unconventional groupings throw fresh light on Romantic poetry as a whole. An appendix is included, designed to be read as a supplement to the main text, serving both as a chronology and as a brief guide to works that do not fall within the scope of the main argument. This title will be of interest to students of literature.
